Title: Operating Reports for Telecommunications and Broadband Borrowers.

OMB Control Number: 0572-0031.

Type of Request: Extension of a currently approved collection.

Abstract: Rural Utilities Service (RUS), an agency delivering the U.S. Department of Agriculture (USDA) utilities programs, is a credit agency. RUS makes mortgage loans and loan guarantees to finance electric, broadband, telecommunications, and water and waste facilities in rural areas. In addition to providing loans and loan guarantees, one of the Agency's main objectives is to safeguard loan security

until the loan is repaid. This collection of information covers the Telecommunications Operating Report, the Broadband Operating Report, and RUS Form 674, "Certificate of Authority to Submit or Grant Access to Data." The data collected via the Telecommunications Operating Report is collected through the USDA Data Collection System. The data collected via the Broadband Operating Report is collected through the USDA Broadband Collection and Analysis System. The data collected via the Telecommunication and Broadband Operating reports is required by the loan contract and provides Rural Development with vital financial information necessary to ensure the maintenance of the security for the Government's loans, and statistical data to enable the Agency to ensure the provision of quality telecommunications and broadband services as mandated by the Rural Electrification Act (RE Act) of 1936. The data collected through the operating reports provides financial information to ensure loan security consistent with due diligence and is essential to protect loan security. The data collected via RUS Form 674 provides information to the Agency to allow Rural Development Electric, Telecommunications and Broadband program Borrowers to file electronic Operating Reports with the Agency using the USDA Data Collection System. RUS Form 674, accompanied by a Board Resolution, identifies the name and USDA eAuthentication ID for a certifier and security administrator who will have access to the USDA Data Collection System for purposes of filing electronic Operating Reports. The information collected on the RUS Form 674 is submitted in hard copy by Borrowers only when revisions are required or, in the case of a first time Borrower, when initially submitting the data.

Authority: Section 203 (j)(2)(B)(i) of the United States—Morocco Free Trade Agreement Implementation Act (19 U.S.C. 3805 note) (USMFTA Implementation Act); Executive Order 11651 of March 3, 1972, as amended.

Background: Article 4.3.3 of the USMFTA provides that, on the request of either Party, the Parties shall consult to consider whether the rules of origin applicable to a particular textile or apparel good should be revised to address issues of availability of supply of fibers, yarns, or fabrics in the territories of the Parties. The Parties shall consider that there is substantial production if a Party demonstrates that its domestic producers are capable of supplying commercial quantities of the fiber, yarn, or fabric in a timely manner.

The USMFTA Implementation Act provides the President with the authority to proclaim as part of the HTSUS, modifications to the USMFTA rules of origin set out in Annex 4–A of the USMFTA as are necessary to implement an agreement with Morocco under Article 4.3.6 of the USMFTA, subject to the consultation and layover requirements of Section 104 of the USMFTA Implementation Act. *See* Section 203(j)(2)(B)(i) of the USMFTA Implementation Act.
