Title: Fire and Aviation Management Medical Qualifications Program.

OMB Control Number: 0596–0164.

Summary of Collection: The Protection Act of 1922 (16 U.S.C. 594) authorizes the Forest Service (FS) to fight fires on National Forest System lands. Title 5 CFR, Part 339, authorizes the FS to establish medical qualification standards and require pre-appointment medical examinations, regular recurring periodic examinations after appointment, and whenever there is a direct question about a firefighter's continued ability to meet the medical qualification standards. The information collected pertains to an individual's health status and health history. The collection of this information and use thereof are consistent with the provisions of 5 U.S.C. 552a (Privacy Act of 1974).

Need and Use of the Information: Individuals seeking recertification or employment as a new firefighter with the FS or Department of Interior (DOI) must complete the Health Screening Questionnaire (HSQ). Applicants will also need to complete the Wildland Firefighter Medical Qualifications Program Medical Exam and a Self-Certification Statement and Blood Pressure Check. Wildland firefighters perform long hours of arduous labor in adverse conditions. The information collected is used to determine whether an individual being considered for a position can carry out those duties in a manner that will not place the candidate or coworkers unduly at risk due to inadequate physical fitness and health. If the information is not collected, the Government's liability risk is high, special needs of an individual may not be known, or the screening of an applicant's physical suitability would be greatly inhibited.

Description of Respondents: Individuals or households.
