# Part I — Identification of Foreign Affiliate — Continued

# Section A — Direct Ownership in this Foreign Affiliate

• Equity interest is the U.S. Reporter's direct ownership in the total equity (voting and nonvoting) of the affiliate.
Examples of nonvoting equity include nonvoting stock and a limited partner's interest in a partnership.

•	• Voting interest is the U.S. Reporter's direct ownership in just the voting equity of
	the affiliate. Examples of voting equity include voting stock and a general partner's
	interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting
	interest in an affiliate but own less than 100 percent of the affiliate's total equity.

# Part II — Financial and Operating Data of Foreign Affiliate — Continued

# Section B — Number of Employees and Employee Compensation

- Report the number of employees on the payroll at the end of FY 2014 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2014. If the number of employees at the end of FY 2014 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2014. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.
- Report employee compensation expenditures made by an employer in connection with the employment of workers, including cash payments, payments-in-kind, and employer expenditures for employee benefit plans including those required by statute. Base compensation data on payroll records. Report compensation that relates to activities that occurred during the reporting period regardless of whether the activities were charged as an expense on the income statement, charged to inventories, or capitalized. **EXCLUDE** data related to activities of a prior period, such as those capitalized or charged to inventories in prior periods. **EXCLUDE** compensation of contract workers not carried on the payroll of this affiliate. Total employee compensation consists of wages and salaries of employees and employer expenditures for all employee benefit plans.
- Wages and salaries INCLUDE gross earnings of all employees before deduction of employees' payroll withholding taxes, social insurance contributions, group insurance premiums, union dues, etc. INCLUDE time and piece-rate payments, cost of living adjustments, overtime pay and shift differentials, bonuses, profit-sharing amounts, stock-based compensation, and commissions. EXCLUDE commissions paid to independent personnel who are not employees. INCLUDE direct payments by employers for vacations, sick leave, severance (redundancy) pay, etc. EXCLUDE payments made by, or on behalf of, benefit funds rather than by the employer. INCLUDE employer contributions to benefit funds. INCLUDE payments-in-kind, valued at their costs, that are clearly and primarily of benefit to the employees as consumers. EXCLUDE expenditures that benefit employers as well as employees, such as expenditures for plant facilities, employee training programs, and reimbursement of business expenses.
- Employee benefit plans INCLUDE employer expenditures for all employee benefit plans including those mandated by government statute, those resulting from collective bargaining contracts, and those that are voluntary. INCLUDE Social Security and other retirement plans, life and disability insurance, guaranteed sick pay programs, workers' compensation insurance, medical insurance, family allowances, unemployment insurance, severance pay funds, etc. Also, INCLUDE deferred post-employment and post-retirement expenses per FASB ASC 715 (FAS 106). If plans are financed jointly by the employer and the employee, INCLUDE only the contributions of the employer.

# Section C — Technology

Research and development (R&D) expenditures in 33 pertains only to R&D performed by the foreign affiliate, including R&D performed by the affiliate for others (including the U.S. Reporter or its other foreign affiliates) under contract. (EXCLUDE the cost of any R&D funded by the affiliate but performed by others, such as the affiliate's allocated share of R&D performed by the U.S. Reporter (report such R&D on Form BE-10A, 91. See R&D Instructions on page 14 at the back of this form.

# Foreign Affiliate Research and Development Performed

 Research and development performed BY the affiliate — INCLUDE all costs incurred in performing R&D, including depreciation, amortization, wages and salaries, property taxes and other taxes (except income taxes), materials and supplies, allocated overhead, and indirect costs. A more complete definition of research and development costs is provided in FASB ASC 730, Research and Development (FASB Statement No. 2, "Accounting for Research and Development Costs.")

# Part IV — U.S. Exports To and U.S. Imports From Foreign Affiliate

Goods only valued f.a.s. at port of exportation; EXCLUDE services — See Instruction Booklet, Part V.

Affiliate ID	
--------------	--

# **IMPORTANT NOTES**

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2014. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should **INCLUDE** goods only; they should **EXCLUDE** services.

**Capital goods** — **INCLUDE** capital goods but **EXCLUDE** the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

**Consigned goods** — **INCLUDE** consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — EXCLUDE from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — INCLUDE exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. **EXCLUDE** exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also **EXCLUDE** negotiated leasing fees for software that is to be used on networks.

**Natural gas, electricity, and water** — Report ONLY the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. DO NOT report the service value (transmission and distribution).

  - f. Re-measurement of the foreign affiliate's foreign-currencydenominated assets and liabilities due to changes in foreign exchange rates during the reporting period;
  - g. Extraordinary, unusual, or infrequently occurring items that are material. INCLUDE losses from accidental damage or disasters, after estimated insurance reimbursement. INCLUDE other material items, including write-ups, write-downs, write-offs of tangible and intangible assets; gains (losses) from the sale or other disposition of capital assets; and gains (losses) from the sale or other disposition of financial assets, including securities, to the extent not included above. EXCLUDE legal judgments and settlements;
  - h. The cumulative effect of a change in accounting principle;
  - The cumulative effect of a change in the estimate of stock compensation forfeitures under FASB ASC 718 (FAS 123(R)).

Dealers in financial instruments and finance, insurance, and real estate companies, see **Special Instructions**, page 14.

**28** Foreign income taxes — **EXCLUDE** production royalty payments and U.S. income taxes.

# Part III — Investment and Transactions Between the U.S. Reporter and the Foreign Affiliate

Section A — U.S. Reporter's Equity in Foreign Affiliate's Net Income, and Dividends or Distributed Earnings

Dividends and distributed earnings — Report this item based on the books of the U.S. Reporter. Report amounts received or entered into intercompany accounts, whichever occurred first. INCLUDE amounts for which payment was made in-kind. If a receivable was booked in a prior reporting period, do not report the collection of the receivable in the current period.

Section B — Change in U.S. Reporter's Equity in Capital Stock and/or Additional Paid-in Capital of Incorporated Foreign Affiliate or Equity Investment in Unincorporated Foreign Affiliate

# 52 - 54

Increase in U.S. Reporter's Equity Interest in This Affiliate —
For a newly established or acquired affiliate, report what the U.S.
Reporter paid and/or borrowed to establish or acquire the affiliate in
52 or 54 as appropriate. Do not report the book value of the equity interest if it differs from what was paid.

# 55 - 57

Decrease in U.S. Reporter's Equity Interest in This Affiliate — For an affiliate that is sold, report the sales price in 55 or 57 as appropriate. INCLUDE foreign income taxes, if any, on gains (and tax refunds on losses) in the calculation of these items. Report the ending intercompany debt position for the affiliate (in column (1) of 63 and 64) as zero. If debt positions still exist, they are between a U.S. person and an unaffiliated foreign person, and may be reportable on the Department of the Treasury International Capital report forms.

For investments written off, enter zero in 55 – 57. If an account receivable due to the U.S. Reporter from the affiliate is written off, report the amount of the receivable in 53 as a capital contribution.

Section C — Debt and Other Intercompany Balances and Interest Receipts and Payments Between the U.S. Reporter and the Foreign Affiliate

# 63 - 64

Debt and Other Intercompany Balances Between the U.S. Reporter and the Foreign Affiliate

Leases — Disaggregate lease payments into their component parts. Report return of capital, consisting of principal payments for capital leases and the depreciation component for operating leases, in 63 and 64. Report the interest component under capital leases in 65.

If the foreign affiliate has leased equipment to/from the U.S. Reporter under a long-term operating lease (i.e., the lease is for more than one year), then:

- **INCLUDE** the FY 2014 closing net book value of the leased equipment in column (1), and
- **INCLUDE** the FY 2013 closing net book value of the leased equipment in column (2).

**Derivative Contracts** — Do **NOT** report either the value of outstanding financial derivative contracts or any payments or receipts resulting from the settlement of those contracts. For example, the settlements of interest rate derivatives should not be reported as interest or as another type of transaction on this form. Derivatives contracts are covered by the Treasury International Capital (TIC) Form D-Report of Holdings of, and Transactions in, Financial Derivatives Contracts with Foreign Residents.

# **R&D** Instructions

R&D pertains to planned, creative work aimed at discovering new knowledge or developing new or significantly improved goods and services. This includes a) activities aimed at acquiring new knowledge or understanding without specific immediate commercial application or use **(basic research)**; b) activities aimed at solving a specific problem or meeting a specific commercial objective **(applied research)**; and c) systematic use of research and practical experience to produce new or significantly improved goods, services, or processes **(development)**.

**Basic research** is the pursuit of new scientific knowledge or understanding that does not have specific immediate commercial objectives, although it may be in fields of present or potential commercial interest.

**Applied research** applies the findings of basic research or other existing knowledge toward discovering new scientific knowledge that has specific commercial objectives with respect to new products, services, processes, or methods.

**Development** is the systematic use of the knowledge or understanding gained from research or practical experience directed toward the production or significant improvement of useful products, services, processes, or methods, including the design and development of prototypes, materials, devices, and systems.

- R&D does **NOT** include expenditures for:
  - · Costs for routine product testing, quality control, and technical services unless they are an integral part of an R&D project
  - Market research
  - Efficiency surveys or management studies
  - · Literary, artistic, or historical projects, such as films, music, or books and other publications
  - Prospecting or exploration for natural resources

R&D includes the activities described above whether assigned to separate R&D organizational units of the company or carried out by company laboratories and technical groups not a part of an R&D organization.

**INCLUDE** all costs incurred to support R&D performed by the affiliate. **INCLUDE** wages, salaries, and related costs; materials and supplies consumed; depreciation on R&D property and equipment, cost of computer software used in R&D activities; utilities, such as telephone, electricity, water, and gas; travel costs and professional dues; property taxes and other taxes (except income taxes) incurred on account of the R&D organization or the facilities they use; insurance expenses; maintenance and repair, including maintenance of buildings and grounds; company overhead including: personnel, accounting, procurement and inventory, and salaries of research executives not on the payroll of the R&D organization. **EXCLUDE** capital expenditures, expenditures for tests and evaluations once a prototype becomes a production model, patent expenses, and income taxes and interest.

# Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies, and Real Estate Companies

- A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.
  - Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — INCLUDE in 27:
    - impairment losses as defined by FASB ASC 320 (FAS 115),
    - · realized gains and losses on trading or dealing,
    - unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
    - goodwill impairment as defined by FASB ASC 350 (FAS 142).

**EXCLUDE** from **27**, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in **41** (all other components of accumulated other comprehensive income (loss)).

**EXCLUDE** from **27**, income from explicit fees and commissions. **INCLUDE** income from these fees and commissions as operating revenue in **21** through **24**, **26**, and in **71**.

- 2. Real estate companies INCLUDE in 27:
  - impairment losses as defined by FASB ASC 360 (FAS 144), and
  - goodwill impairment as defined by FASB ASC 350 (FAS 142).

**EXCLUDE** the income earned and expenses incurred from the sale of real estate you own. Such income should be reported as operating revenue in 25, 26 and 71. Do not net the expenses against the revenues.

# **B.** Special instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-10 on the same basis as the annual report to the stockholders.

Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments, e.g., **INCLUDE** assets not acceptable for inclusion in the annual statement to an insurance department, such as: 1. non-trusteed or free account assets, and 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. **INCLUDE** mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.

- 2. Instructions for reporting specific items
  - a. Sales or gross operating revenues, excluding sales taxes (26) INCLUDE items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. EXCLUDE income from equity investments in unconsolidated business enterprises and EXCLUDE certain gains or losses that are to be reported in 27.
  - b. Certain gains (losses) (27) See Special Instructions, A.1.
  - c. Net book value of property, plant, and equipment (34) — INCLUDE the net book value of property, plant, and equipment, WHEREVER CLASSIFIED IN THE BALANCE SHEET
  - d. Expenditures for property, plant, and equipment (47) — INCLUDE expenditures WHEREVER CLASSIFIED IN THE BALANCE SHEET (e.g., INCLUDE expenditures that have been classified in "other assets").
