## OCEAN OBSERVATION STUDY: LONG SURVEY EXAMPLE

• The following is a "most complex" experience of the survey, meaning it would be the longest survey a respondent could possibly see as a result of the choices he or she would make, and the advanced logic response by the system.

In this example, a hypothetical respondent has chosen:

- 1) "A subsidiary of a multinational company" in Question #2,
- 2) "Provider," "Intermediary," and "End-User" in Question #3,
- 3) Is able to report a revenue split among "Provider," "Intermediary," and "End-User" is Question #14, Part B.
- 4) Reports positive foreign sales in Question #15.
- 5) Reports that they are an IOOS "Provider," "Intermediary," and "End-User" in Question #22.
- In addition to these hypothetical choices' impact on the questions presented, Question #2 also impacts the language of the question, and uses "subsidiary" throughout the survey. This will be an important contribution to clarifying questions for respondents, since the survey universe includes a number of highly complex and multinational companies.

## \*\*\*\*\*\*START OF SURVEY QUESTIONS

1.		s the name and location of the business entity that you represent?  Name:
		City:
		State / Country (if outside U.S.):
		Your position:
2.	What o	organization type best describes your business entity?
		A one-employee business
		A multi-employee business with one location
		A multi-location, <i>U.Sonly</i> business without divisions or subsidiaries
		A division of a larger <i>U.Sonly</i> company
		A subsidiary of a larger <i>U.Sonly</i> company
		A headquarters home office or satellite location of a <i>U.Sonly</i> company with
		separate divisions and/or subsidiaries
		A multi-location, <i>multinational</i> business without divisions or subsidiaries
		A division of a larger <i>multinational</i> company
		A subsidiary of a larger <i>multinational</i> company
		A headquarters home office or satellite location of a multinational company with
		separate divisions and/or subsidiaries
		What is the name and location of your business' headquarters?

apply):  We are a <i>provider</i> of physical or data infrastructure for ocean, coastal, or C Lakes measurement, observation, or forecasting purposes (e.g., platforms, instruments, sensors, data communications, IT infrastructure, satellite or a marine or maritime observation systems, instruments for navigation and positioning, etc.)  We are an <i>intermediary</i> that uses ocean, coastal, or Great Lakes measurem observations or forecasts to create a value-added data product/service offer commercial sale (e.g., to power a weather or surf forecast service, evaluate or maritime environmental hazards, support fish locating, etc.)  We are an <i>end-user</i> that uses ocean, coastal, or Great Lakes measurements observations or forecasts, but we do not use them to create a value-added a product/service for commercial sale (e.g., a fishing fleet operator, a charte service, etc.)  We do not provide ocean, coastal, or Great Lakes measurement, observation forecasting infrastructure, and we do not use ocean, coastal, or Great Lakes measurements, observations or forecasts in our business  4. How long has your subsidiary offered ocean, coastal, or Great Lakes measurement observation or forecast infrastructure (i.e., <i>provider</i> ), value-added data (i.e., <i>intermediary</i> ), or final (i.e., end-use) products/services?  Less than 1 year  1 through 3 years  3 through 5 years  More than 5 years  Unknown	nents, red for e marine data r boat on, or s

	<ul> <li>Ports and harbors</li> <li>Cargo shipping</li> <li>Cruise ships and passenger ships</li> </ul>
	Other:
19.	What kind of ocean, coastal, or Great Lakes observation-, measurement- or forecasting-related infrastructure does your subsidiary sell? (select all that apply):  Hydrographic survey sensors/instruments/systems Shallow geophysical survey sensors/instruments/systems Geotechnical sensors/instruments/systems for measurement/sampling Physical oceanographic sensors/instruments/systems (including cameras) Chemical oceanographic sensors/instruments/systems Biological oceanographic sensors/instruments/systems Navigation and positioning sensors/instruments/systems Platforms such as towed systems, or remote or autonomous underwater vehicles Data communications and Information Technology infrastructure or software platforms/systems Other
20.	If your subsidiary utilizes "IN SITU" data (i.e., data from observations or measurements conducted within or upon a marine environment) from coastal, or Great Lakes observation, measurement, or forecasting to generate value-added data in your products/services, what kind of IN SITU data do you use? (select all that apply):  Bathymetric data Geophysical data Geotechnical data Physical oceanographic data Chemical oceanographic data Biological oceanographic data Other We do not utilize <i>IN SITU</i> data
21.	If your subsidiary utilizes "REMOTELY SENSED" data (i.e., data from sources outside a marine environment) from ocean, coastal, or Great Lakes observation, measurement, or forecasting to generate your value-added data products/services, what kind of REMOTELY SENSED data do you use? (select all that apply):  Aircraft observations  Satellite observations  Other  We do not utilize <i>REMOTELY SENSED</i> data
22.	Is your subsidiary aware of the Integrated Ocean Observing System (IOOS) and, if so, does your subsidiary contribute to IOOS infrastructure or utilize IOOS-coordinated data, including to create value-added products/services? (Select all that apply):  □ We are unaware of IOOS

		We are aware of IOOS We are an IOOS <i>provider</i> ; we contribute to IOOS infrastructure We are an IOOS <i>intermediary</i> ; we create value-added products/services from IOOS-coordinated data
		We are an IOOS <i>end-user</i> ; we use IOOS-coordinated data
23.		nich of the following do you consider issues or barriers to working with IOOS that pact your subsidiary? (select all that apply):  Limited access to IOOS data streams  Structure of IOOS data streams limits usability  Lack of documentation on IOOS data streams  IOOS data does not adequately cover the geography needed  Difficulties or limitations with adapting new technology into IOOS  Limited knowledge about future investment and development plans for the IOOS system  Hard to find employees who can work with the IOOS infrastructure  Hard to find employees who can work with the IOOS data  State or local regulations or restrictions  Other:  None of the above  Unknown
24.		the future, does your subsidiary plan to (select all that apply):  OS Infrastructure plans  Deploy new infrastructure products/services for IOOS  Expand the capabilities of our infrastructure products/services for IOOS  Make no changes to our infrastructure products/services for IOOS  Reduce our infrastructure products/services for IOOS  Eliminate our infrastructure products/services for IOOS  OS Intermediary plans  Create new value-added products/services that utilize IOOS-coordinated data  Expand the capabilities of our value-added products/services that utilize IOOS-coordinated data  Make no changes to our value-added products/services that utilize IOOS-coordinated data  Reduce our value-added products/services that utilize IOOS-coordinated data  Eliminate our value-added products/services that utilize IOOS-coordinated data  OS End-User plans  Develop new end-use IOOS-coordinated data products/services  Expand the capabilities of our end-use IOOS-coordinated data products/services  Reduce our end-use IOOS-coordinated data products/services  Reduce our end-use IOOS-coordinated data products/services
	T A 71.	-i-lf-thf-lliii

25. Which of the following improvements by IOOS would help your subsidiary? (select all that apply):

Better information and data stream standardization

	<ul> <li>□ More openness to opportunities for new innovations</li> <li>□ Greater focus on the interests of small or new enterprises</li> <li>□ Greater focus on the interests of large or established enterprises</li> <li>□ Other: (please describe)</li> <li>□ None of the above</li> </ul>
26.	Do you feel your subsidiary's current or future workforce could benefit from specific training for working with IOOS data or providing IOOS infrastructure?  Yes, option open-ended  No Uncertain
27.	Are there changes to IOOS that would make it easier for your subsidiary to provide infrastructure or related services or products to the IOOS system?  Yes, option open-ended  No  Uncertain
28.	Are there changes to IOOS that would make it easier to for your subsidiary to utilize IOOS data in value-added products?  Yes, option open-ended No Uncertain
29.	If known or available, what is your subsidiary's D-U-N-S number?
30.	Can you recommend other recipients for this survey? These could be other parts (such as other subsidiaries, divisions, or a headquarters) of your company, or could be other qualified companies.  Yes No If yes, please list below (name of company and contact if available):
31.	Are there any additional comments, concerns, or recommendations that you would wish IOOS to know?
