PRIVACY ACT STATEMENT

Authority: The collection of this information is authorized under the Northern Pacific Halibut Act of 1982 and the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 *et seq.*

Purpose: In order to manage U.S. fisheries, the NOAA National Marine Fisheries Service (NMFS) requires the use of permits or registrations by participants in the United States. A charter halibut permit (CHP) is required for vessel operators participating in the guided sport fishery for Pacific halibut (charter halibut fishery) in International Pacific Halibut Commission regulatory areas 2C (Southeast Alaska) and 3A (Southcentral Alaska). As the initial selection process for CHPs has ended, no new CHPs other than military CHPs and community CHPs will be issued; a CHP may only be obtained through transfer. Transferor and transferee information collected on this form is used to determine eligibility to transfer and receive the CHP.

Routine Uses: The Department will use this information to identify fishery participants and to determine transfer eligibility. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in the [Privacy Act System of Records Notice COMMERCE/NOAA-19](#), Permits and Registrations for the United States Federally Regulated Fisheries.

Disclosure: Furnishing this information is required to transfer a CHP under the Charter Halibut Limited Access Program. Failure to provide complete and accurate information will prevent the determination of eligibility to transfer or receive the CHP.
