OMB Control #0693-0033 Expiration Date: 06/30/2019

Thank you for agreeing to take part in this survey of NIST's SBIR award program!

We would like to gather some information on the following Phase I award that your company received. The survey questions that follow address the results from the following Phase I award.

Phase I Award

Award Number: Award Year: Award Title:

This survey is designed to help NIST management determine how well NIST's SBIR awards have met their mandated objectives and to identify ways in which the selection, management, and reporting processes can be improved.

A summary of survey results will be used to prepare an internal report for NIST management. Researchers working on this survey have signed nondisclosure agreements and all information obtained will be kept in the strictest confidence. No information obtained in this survey will be used to influence the selection of future awardees.

This survey should take no more than 30 minutes of your time.

OMB Control #0693-0033 Expiration Date: 06/30/2019

OMB Control #0693-0033

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection is estimated to be 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the National Institute of Standards and Technology, Attn: Michael Walsh, michael.walsh@nist.gov
