Baldrige Cybersecurity Excellence Builder (BCEB), Version 1.1

The Baldrige Cybersecurity Excellence Builder, Version 1.1 is a self-assessment tool to help organizations assess the effectiveness of their cybersecurity risk management efforts and identity improvement of their overall organizational performance. This self-assessment tool blends organizational assessment criteria from the Baldrige Performance Excellence Program with the concepts and principles of the Cybersecurity Framework from NIST's Applied Cybersecurity Division.

The public can download the tool and email their feedback.
