Apply for FA
My Enrollments

Welcome to MyCAA! We are excited to get you started!!

Now that you have created your account, we need some information from you regarding your career goals and your program of study. On the following pages, we will guide you through the process of selecting a Career Goal, and submitting an Education and Training Plan for approval. After your Plan has been approved, you will then be able to submit a request for Financial Assistance (FA).

ATTENTION!!

Plans are processed in the order they are received and can take up to 14 business days to be reviewed and approved. Please plan accordingly when enrolling in courses or a program of study. The My Career Advancement Account Scholarship will not pay for any courses taken without an approved Education and Training Plan.

Remember....Be a wise consumer of educational programs and testing services.

- Before signing up for a course of study, [contact a MyCAA Career and Education Consultant](#) for career counseling. Make sure you are choosing a portable career field and occupation that suits you best.
- Be careful when signing school documents (online or hardcopy). MyCAA only pays for tuition costs for courses approved on your MyCAA E&T Plan up to \$4,000. Costs above that amount are your responsibility.
- Determine the total cost of your education before signing any program of study contracts (e.g. books, fees, supplies and equipment, uniforms, computers, student loans, etc.). Will your salary enable you to pay costs over \$4,000?
- Check out the [Tests](#) section of the MyCAA Spouse Portal to see which ones MyCAA does and does not pay for. Note the warnings about purchasing test preparation materials.
- If you need help, [use your Message Box](#) to get in touch with a MyCAA Career and Education Consultant. This is the fastest way to get information and assistance.
- If you wish to submit a formal complaint regarding a school or institution, please

Terms & Conditions

Congratulations! Now that your Education and Training Plan has been approved, you can start requesting Financial Assistance (FA) on a course-by-course basis. Please review the guidelines for Financial Assistance.

Please review the terms and conditions below to avoid (1) having your requests for Financial Assistance be rejected during the school invoicing process or (2) having your Account suspended or closed. If this happens, you will be held responsible by your school for paying course costs.

- Check to see if there is space available in the classes you want to take PRIOR to submitting requests for Financial Assistance (FA).
- Have your school officials validate that your school and course information is correct BEFORE you submit each FA request as this information will be used to confirm the accuracy of school invoices for payment purposes.
- Submit your FA request for approval on a course-by-course basis between 60 to 15 days prior to course start dates. **If you miss this timeframe, your FA request will be rejected and your school will hold you responsible for course costs.**
- If you are about to exceed your total education benefit of \$4,000 or the \$2,000 annual cap, any partial course payments still due will be your responsibility.
- Remember, funding can ONLY be used for tuition costs for education and training programs that lead to a license, certification or Associate's degree (excluding General Studies and Liberal Arts), and costs for licensing and certification tests. The Program does not pay for books, supplies, equipment, computers, fees and other expenses. For more details, read the Fact Sheet.
- Funding CANNOT be used for partial course payments or when other sources of federal education funding are being used to pay for the same course.
