Definition
The two-digit state abbreviation (e.g., GA)
The four digit calendar year (e.g., 2019)
The full name of the month (e.g., January)
Includes "a_Unintentional" for all unintentional and undetermined overdose intent (e.g., a 1 or 4 in the 6th or 7th ICD-10-CM "b_Self-harm" for all intentional self-harm overdose intent (e.g., a 2 in the 6th or 7th ICD-10-CM code character). *Please see a definition guidance for hospital/billing data to see all relevant ICD-9-CM and ICD-10-CM overdose codes split by manner/inten*
Three categories: male, female, missing
Eleven categories: 0-10 years, 11-14 years, 15-24 years, 24-34 years, 35-44 years, 45-54 years, 55-64 years, 65-74 years, 75-84 up, missing
Exact name of the County within each jurisdiction (e.g., Adams). *Please exclude the word "county" after the county name (e.g. County").*
Five character FIPS code for the County within each jurisdication where the first two digits are the state code and the last thre county code (e.g., 12345)
The number of ED visits/hospitalizations for each month within the required quarter related to a suspected drug overdose. Fo data is due April 13, 2020 and must include data listed separately for October, November, and December.
The number of ED visits/hospitalizations for each month within the required quarter related to a suspected opioid overdose. F data is due April 13, 2020 and must include data listed separately for October, November, and December.
The number of ED visits/hospitalizations for each month within the required quarter related to a suspected heroin overdose. I data is due April 13, 2020 and must include data listed separately for October, November, and December.
The number of ED visits/hospitalizations for each month within the required quarter related to a suspected stimulant overdos 2019 data is due April 13, 2020 and must include data listed separately for October, November, and December.
The total number of ED visits/hospitalizations for each month within the required quarter that were included in the analysis.

Attachment E - ED discharge overdose data form

Public reporting burden of this collection of information is estimated at 3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/Information Collection Review Office, 1600 Clifton Road, NE, MS D-74, Atlanta, GA 30333; Attn: PRA (0920-XXXX).

Describe and provide metadata on quarterly hospital discharge data tracking <u>ED visits</u> involving suspected drug, opioid, heroin, and stimulant overdoses

1. Approximately what percent of ED visits in your state or jurisdiction were included in your analysis? (Enter a percentage such as "75%")

   [   ]

2. How many total facilities are included in your analysis for this data submission? (Enter a number such as "22")

   [   ]

3. Over 90% of hospitals report data within (Check response):

[ ] < 1 month	[ ] < 3 months	[ ] < 6 months	[ ] < 1 year
[ ] < 2 year	[ ] > 2 year	[ ] Unknown	

4. What was the maximum number of diagnosis codes (e.g., ICD-10-CM) entered for a single ED visit in this data submission? (Enter a number such as "10")

   [   ]

5. What was the mean number of diagnosis codes (e.g., ICD-10-CM) that were entered for all ED visits in this data submissions? (Enter a number such as "8")

   [   ]

6. Report the percent of all ED visits in this data submission that have no diagnosis codes (e.g., ICD-10-CM). (Enter a percentage such as "5%")

   [   ]

7. Please identify and describe any major issues that impact the quality of data shared during this data submission time period.

   Please briefly describe the problem

   [   ]

8. Who should CDC contact with questions about this data report?
