

REQUEST FOR DETERMINATION OF RESEARCH STATUS

To be completed by the staff member with lead responsibility for the project and approved by branch chief (if applicable) and Division ADS. A separate PGO funding memo is required if project is research and involves human subjects regardless of the CDC staff role.

- Instructions:**
- (1) Use this form to declare: (a) the research status of any project, (b) role or roles of CDC staff
 - (2) A short summary should be attached offering specific details about the project and the role of staff.
 - (3) Be sure to complete all applicable items, obtain appropriate signatures and submit this form for approval.

Tracking Number: TBD/TBD
 (Use PGO number if cooperative agreement, grant, etc.)

Date submitted: 02/09/2017
Title of Project: An Evaluation of Multi-State Network Approaches to Scaling the National Diabetes Prevention Program to Priority Populations

Dates for project period:	Dates for funding (if applicable):
Beginning: <u>09/30/2017</u>	Beginning: <u>09/30/2017</u>
Ending: <u>09/29/2022</u>	Ending: <u>09/29/2018</u>

Project is (choose one):

NOTE: Revision, as used below, refers to any substantive change made to the project including scope of project, funding restrictions, personnel, role of CDC staff member, determination of research status, etc.

| <input checked="" type="checkbox"/> New | <input type="checkbox"/> Revision |
| <input type="checkbox"/> Continuation, without revision(s) | <input type="checkbox"/> Continuation, with revision(s) |

Lead staff member:	Contact information:	Please indicate your role(s) in this project:
Name: <u>Jeannette May</u>	Division: <u>DDT</u>	<input type="checkbox"/> Project officer <input type="checkbox"/> Technical monitor
User ID: <u>JXM5</u>	Telephone: <u>770-488-5016</u>	<input type="checkbox"/> Principal investigator <input type="checkbox"/> Investigator
Scientific Ethics number: <u>10297</u>	Mailstop: <u>F75</u>	<input type="checkbox"/> Consultant <input checked="" type="checkbox"/> Other (please explain) Assisting with Contract Processing

1. Are any or all of the activities within this project DESIGNED to contribute to generalizable knowledge (i.e., research)?
 YES **NO**

If YES, list those activities which are research:

2. Is this CDC project research or public health practice (check all that apply)?
- | | |
|---|--|
| <input type="checkbox"/> Research | <input checked="" type="checkbox"/> Public health practice |
| <i>Check one:</i> | <i>Check all that apply:</i> |
| <input type="checkbox"/> Human subjects involved | <input type="checkbox"/> Emergency Response <input type="checkbox"/> Surveillance |
| <input type="checkbox"/> Human subjects not involved | <input checked="" type="checkbox"/> Program evaluation <input type="checkbox"/> Other (please explain) |

3. If RESEARCH involving human subjects, has the project or research activities been reviewed by the CDC IRB for human subjects protection?

- | | |
|--|--|
| a. <input type="checkbox"/> NO, New project, not yet reviewed | d. <input type="checkbox"/> YES, Reviewed and approved by CDC |
| b. <input type="checkbox"/> NO, Existing project, not ready to submit | If YES, please list protocol number and expiration date _____ |
| c. <input type="checkbox"/> NO, Submitted for approval | e. <input type="checkbox"/> NO, RESEARCH, no CDC investigators (CDC IRB not required) |
| | f. <input type="checkbox"/> N/A (Not Applicable) |

If RESEARCH, list any other CDC staff involved in this project, please include the name, role, and scientific ethics number

Name	Role (project officer, investigator, consultant, etc.)	Scientific ethics number Prin
Jeannette May		10297

IF YOU THINK THE RESEARCH PROJECT MIGHT QUALIFY AS EXEMPT RESEARCH (as identified in 45CFR46.101), PLEASE ANSWER questions 4-6, OTHERWISE SKIP TO question 7.

4. Does the proposed research involve prisoners?
 YES If YES, this research cannot be exempted and must be reviewed by an IRB (skip to question 7).
 NO
5. Does the proposed research involve fetuses, pregnant women, or human in vitro fertilization as targets (such that Subpart B would apply)?
 YES If YES, this research cannot be exempted and must be reviewed by an IRB (skip to question 7).
 NO

Educational Research

- 6.1 Is this research conducted in established or commonly accepted educational settings, AND does the research involve normal educational practices (e.g., research on regular and special education strategies or research on the effectiveness of, or comparison among instructional techniques, curricula or classroom management methods)?
 YES NO

Research Involving Surveys, Interview Procedures (including Focus groups), Observation of Public Behavior, or Educational Tests

- 6.2 Will this research use educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior?
 YES NO If NO skip 6.3
 Will children (<18 years of age) be research subjects?
 YES If YES, this research cannot be exempted and must be reviewed by an IRB (skip to item 7)
 NO
- 6.2.1 Is the information obtained recorded in such a manner that human subjects can be identified directly or indirectly through identifiers (such as a code) linked to the subjects;
 YES NO
- 6.2.2 Will any disclosure of the human subjects' responses outside of the research setting have the potential to place the subjects at risk of criminal or civil liability, or be damaging to the subjects' financial standing, employability or reputation? (Examples here may include: the collection of sensitive data regarding the subjects' (or relatives' or associates') possible substance abuse, sexuality, criminal history or intent, medical or psychological condition, financial status, or similarly compromising information).
 YES NO
- 6.3 Will this research use educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior but the research is not exempt under paragraph 6.2 of this section:
 YES NO If NO skip to 6.4
- 6.3.1 Will this research involve human subjects that are elected or appointed public officials or candidates for public office?
 YES NO
- 6.3.2 Does federal statute(s) require(s) without exception that confidentiality of the personally identifiable information will be maintained throughout the research and thereafter? (Note: CDC can use this exemption criterion only in the case where a 308(d) Assurance of Confidentiality has been obtained to cover the research).
 YES NO

Existing Data Which Is Publicly Available or Unidentifiable

- 6.4 Does this research involve only the collection or study of existing* data, documents, records, pathological or diagnostic specimens? (* 'existing' means existing before the study begins)?
 YES NO If NO skip to 7
- 6.4.1 Is this material or information publicly available?
 YES NO

6.4.2 Is this material or information recorded in such a manner by the investigator that the subjects cannot be identified directly or indirectly through identifiers linked to the subjects?

(Note: If a link is created by an investigator even temporarily, for research purposes, this criterion is not met. If a temporary link is created by clinical staff who already have access to the data, this criterion is met).

- YES (there are no identifying information and no unique identifiers or codes) YES
 NO (there are identifiers (including codes))

7. Please prepare and attach a short summary paragraph (<1 page); if this is new:

- a. Be sure to include the purpose of the project, specific details about the project and the role of the CDC staff member (s) in the project. In explaining one's role as a consultant be particularly careful to identify involvement in things like: study design decisions, oversight of protocol development, participation in review of data collection procedures, and participation in data analysis and/or manuscript preparation, as well as whether there will be access to identifiable or personal data.
- b. Explain your project status selection (research--non-exempt, exempt, no CDC investigator or not involving human subjects; public health practice). If you selected research not involving human subjects be sure to indicate if the data includes any personal information (e.g., name, SSN), linkable study identification numbers or codes, or geographical information.

This project is a comprehensive evaluation of the cooperative agreement DP17-1705 to scale the National DPP to priority populations with prediabetes including: Medicare beneficiaries, men, African-Americans, Asian-Americans, Hispanics, American Indians, Alaska Natives, Pacific Islanders, and people with visual or physical disabilities.

The program evaluation efforts of this task order will consist of:

- 1) testing and enhancing the CDC-developed data collection tools for the national evaluation of DP17-1705 FOA;
- 2) developing a new information collection package and obtaining approval from the Office of Management and Budget (OMB) for all final data collection tools specified in the DP17-1705 National Evaluation Plan developed by CDC;
- 3) developing and maintaining an integrated database to systematically collect data at the grantee, site, and participant level;
- 4) providing technical assistance for grantees and affiliate sites on data collection, evaluation plan development and implementation, program implementation and delivery, and dissemination of emerging/promising practices and guidance;
- 5) collecting, validating, and linking data from different sources identified in the national evaluation protocol for CDC to conduct analyses; developing consumer-friendly emerging/promising practice documents, materials, resources, and tools around scaling the National DPP to priority populations; and
- 6) identifying key topic areas for case studies and focus groups, designing and implementing evaluation plans, collecting and analyzing data, and synthesizing and disseminating results.

8. Please list the primary project site and all collaborating site(s).

Explanation of project components:

9. If project involves research that is funded extramurally, list amount of award that should be restricted pending IRB approval and describe which project components will be affected, if known:
