

Welcome to the NICHD Staff Engagement Questionnaire

Thank you for your continued dedication to advancing the mission and vision of the NICHD during this extraordinary time. We are continuing to plan and adjust to the needs of all NICHD staff. As part of our planning, we are gathering information about your current work location, your challenges in returning to the workspace, and other concerns you related to COVID-19.

This survey has 16 questions and should take about 6 to 8 minutes to complete. Your responses will be private to the extent permitted by law and anonymous. Data from this survey will be reported for NICHD as a whole; your individual responses will not be accessible to anyone.

If you have questions about this survey, please contact nichdmaps@mail.nih.gov.

Public reporting burden for this collection of information is estimated to average 6-8 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.
