**TITLE OF INFORMATION COLLECTION:** NLM NCBI 2018 Microbial Genome Resources Survey

#### **PURPOSE:**

The goal of this National Library of Medicine (NLM) survey is to collect qualitative customer service delivery feedback from users of the National Center for Biotechnology Information (NCBI) molecular resources that focus on bacteria, specifically, customers who view bacterial records using the Assembly, Nucleotide, Genome, BLAST, and Protein resources. The survey consists of a short list of questions about how people are using these resources, what they find useful about these products and what changes and improvements would make the products better suit their needs. The information from this survey will be used to improve the content and scope of the public data and resources for bacteria.

#### **DESCRIPTION OF RESPONDENTS:**

**Personally Identifiable Information:**
