

Navigator for Clinicians - ROUND 2
Recruitment/Screening for
Primary Care Nurse Practitioners/Physician Assistants AND Physicians

Burden Disclosure Statement

Public reporting burden for this collection of information is estimated to average 6 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.

6. Race/Ethnicity: mix
7. Setting: urban, rural, suburban
8. Clientele served: all or predominantly adults

Phone Script

Hello. My name is _____ of _____, a local marketing research firm working on behalf of the National Institutes of Health. The NIH has asked us to recruit health care professionals for online focus groups to help them develop some practical resources for patient care. If you're selected, you will receive \$200 for a 60-minute session that you can do from your own computer at work or at home. I want to assure you that this is not a sales call and the information gathered will not be used for selling you anything. The NIH is looking for input on how they can support you and other clinicians as you manage the care of adult patients with certain common behavioral health issues that have medical consequences.

1. Does this sound like something you would be interested in participating in?
 - a. No [TERMINATE]
 - b. Yes

Great. I would like to ask you a few questions to see if you qualify to participate in the research study. It would take 60 minutes of your time on *[day, date, time]*.
