TITLE OF INFORMATION COLLECTION: NIH Rockledge I/II Phase 1-Post-Occupancy CM Survey (ORS/OD)

PURPOSE:

We are collecting information for the consolidation of three NIH Institutes/Center (ICs) within the Rockledge I/II building complex. We are sending the survey to the ICs who were impacted by the move.

We are asking the federal employees and the contractors who work in this space to participate in a web-based survey that will help us understand how ready they handled the change, as well as the extent to which they engaged with the change management process. This survey asks a series of questions about comfort levels with change, understanding of the change, and satisfaction with the newly designed elements in the workspace. This will help CallisonRTKL and NIH understand the effectiveness of change management efforts with this project, as well as ways to improve the change management and communications process for this project.

DESCRIPTION OF RESPONDENTS:

The respondents are the NIH federal employees and their contractors who will be consolidating their office space into the two project locations noted above.
