PROGRAM: EPA - FOOD RECOVERY CHALLENGE

2 or 3 Gathered Together

PARTICIPATION AGREEMENT

New Response for: 2 or 3 Gathered Together

Survey Data

Instructions:

All information and data submitted to EPA as part of the Food Recovery Challenge (FRC) will be reviewed for accuracy and completeness. If additional information and data is needed, or if EPA needs to clarify anything that has been submitted, participants will be contacted by a representative of the Food Recovery Challenge (FRC).

Our organization is choosing to participate in EPA's Food Recovery Challenge. Our goal is to reduce our food waste to landfills or work with others to reduce their food waste to landfills through activities such as: source reduction, donations and composting. Information on SMM and the Food Recovery Challenge, please visit <http://www.epa.gov/smm/foodrecovery/index.htm>

All fields are required on this form. You will not be able to submit this form if any field is left empty.

Today's Date: *

How did you find out about the Food Recovery Challenge? *

(E.g. Website, Conference, Outreach material, FRC Participant, FRC Endorser)

Our organization would like to join the Food Recovery Challenge as a: *

- FRC Participant - Reduce wasted food through prevention, donation, composting and anaerobic digestion
- FRC Endorser - Promote sustainable food management by educating organizations about the environmental consequences of wasted food and recruitment of participants

By checking this box, I am stating that I understand the Food Recovery Challenge requirements, agree to the above terms and conditions, and have the authority to register my organization for the Food Recovery Challenge. *

OMB Control No. 2050-0139.

Survey Data

Instructions:

Please complete and submit this form within 90 days of registration.

All information and data submitted to EPA as part of the Food Recovery Challenge (FRC) will be reviewed for accuracy and completeness. If additional information and data is needed, or if EPA needs to clarify anything that has been submitted, participants will be contacted by a representative of the Food Recovery Challenge (FRC).

Participants must report data in at least one of the three food diversion categories (prevention, donation, and food recycling). Baseline goals should represent what you can accomplish by the end of the current calendar year.

Choose the Food Waste Prevention and Recycling activity(ies) your organization plans to undertake and identify quantitative goals your organization proposes to achieve in tons or lbs. For more information and ideas on how to reduce your wasted food, please click here <http://www.epa.gov/waste/conserve/foodwaste/index.htm>

When filling out this form, please input the difference between your baseline data and your projected goal (for example: If your baseline is 90 tons and you would like to move toward 100 tons then you should enter 10 tons as your goal)

If you are just beginning to work on a new program or have not done an inventory of your food waste recently, please select "Summary Activities" below for inputting your goals.

If you have more detailed information about your data and would like to track by individual actions, please select "Detailed Activities" below for inputting your goals.

I will be reporting Food Waste Prevention and Recycling: *

Food Waste Prevention and Recycling - Summary Activities

DIVERSION CATEGORY	AMOUNT	UNIT	TONS	COMMENTS/ACTIVITY DETAILS*
Food Waste Prevention	_____	Tons	<input type="text"/>	_____
Food Donation	_____	Tons	<input type="text"/>	_____
Food Recycling (e.g. composting, anaerobic digestion)	_____	Tons	<input type="text"/>	_____
Total Diverted			<input type="text"/>	

Comments:

*Food waste prevention and recycling activities that make up the three diversion categories, include but are not limited to: reducing over-purchasing of food, proper storage and handling techniques, reducing plate waste, making donations to feed those in need, feeding food scraps to animals, and food recycling through composting and anaerobic digestion. Information on other food diversion activities can be found at <http://epa.gov/waste/consERVE/foodwaste/>.

Additional Resources

The Food Recovery Challenge works within the food waste hierarchy with source reduction being the preferred method.

- Food Recovery Challenge is looking for innovative programs geared towards new and improved methods of food waste diversion.
- Food Recovery Challenge encourages its participants to raise awareness of food waste prevention and management.
- Food Recovery Challenge encourages its participants to improve sustainable food waste management practices both regionally and nationally.

Food Waste Prevention, Food Donation, Food Recycling (<http://epa.gov/waste/consERVE/foodwaste/>)

Please complete and submit this form within 90 days of registration.

All information and data submitted to EPA as part of the Food Recovery Challenge (FRC) will be reviewed for accuracy and completeness. If additional information and data is needed, or if EPA needs to clarify anything that has been submitted, participants will be contacted by a representative of the Food Recovery Challenge (FRC).

Participants must report data in at least one of the three food diversion categories (prevention, donation, and food recycling). Baseline data should be representative of 12 months of food waste data prior to joining the FRC. If the participant does not have data or cannot provide a reliable estimate for the food diversion categories chosen, the participant should enter a zero. For ideas on how to establish your baseline, please click here. (<http://www.epa.gov/epawaste/conserv/smm/wastewise/plan-program.htm>)

Entering food waste disposal data is optional, but is necessary if you would like to calculate a food waste diversion rate.

If you are just beginning to work on a new program or have not done an inventory of your food waste recently, please select "Summary Activities" below for inputting your goals.

If you have more detailed information about your data and would like to track by individual actions, please select "Detailed Activities" below for inputting your goals.

Total Tons Generated:

Diversion Rate:

 %

Comments:

*Food waste prevention and recycling activities that make up the three diversion categories, include but are not limited to: reducing over-purchasing of food, proper storage and handling techniques, reducing plate waste, making donations to feed those in need, feeding food scraps to animals, and food recycling through composting and anaerobic digestion. Information on other food diversion activities can be found at <http://epa.gov/waste/conserve/foodwaste/>.

Additional Resources

The Food Recovery Challenge works within the food waste hierarchy with source reduction being the preferred method.

- Food Recovery Challenge is looking for innovative programs geared towards new and improved methods of food waste diversion.
- Food Recovery Challenge encourages its participants to raise awareness of food waste prevention and management.
- Food Recovery Challenge encourages its participants to improve sustainable food waste management practices both regionally and nationally.

Food Waste Prevention, Food Donation, Food Recycling (<http://epa.gov/waste/conserves/foodwaste/>)

Composting (<http://www.epa.gov/waste/conserves/composting/>)

Anaerobic Digestion (<http://epa.gov/waste/conserves/foodwaste/fd-anaerobic.htm>)

PROGRAM: EPA - FOOD RECOVERY CHALLENGE

Test Organization

ENDORSER FIRST YEAR GOAL FORM

 New Response for: Test Organization Survey Data**Instructions:**

This form should be completed only once to set baseline goals for endorser participation in the Food Recovery Challenge (FRC). Your baseline goals should be set for the calendar year in which you completed your participation agreement. Typical Endorser activities are listed below and should be quantified where requested. For Endorser activities not listed, please check the "Other" box and provide a narrative description in the comment field. When possible, please make every attempt to quantify your actions and goals.

CLICK "SAVE" TO RETAIN YOUR ENTRIES FOR FUTURE EDITING. CLICK "SUBMIT TO PROGRAM" WHEN YOU ARE READY TO SET YOUR ENDORSER GOAL FOR THE FOOD RECOVERY CHALLENGE.

Proposed Project Description - Please briefly describe your planned activities (include proposed project time frame). *

Link to EPA's Website:

Test Organization

ENDORSER ANNUAL GOAL FORM

Annual | 2018

New Response for: Test Organization

Survey Data

Instructions:

This form should be completed to set goals for endorser participation in the Food Recovery Challenge (FRC). This form must be completed every year that you participate in the Food Recovery Challenge. Typical Endorser activities are listed below and should be quantified where requested. For Endorser activities not listed, please check the "Other" box and provide a narrative description in the comment field. When possible, please make every attempt to quantify your actions and goals.

CLICK "SAVE" TO RETAIN YOUR ENTRIES FOR FUTURE EDITING. PLEASE "SUBMIT TO PROGRAM" YOUR ANNUAL GOAL DURING THE REPORTING SEASON OF JANUARY 1 AND MARCH 31 OF EACH YEAR - YOUR ANNUAL GOAL SHOULD BE SUBMITTED IN CONJUNCTION WITH YOUR ANNUAL DATA.

Proposed Project Description - Please briefly describe your planned activities (include proposed project time frame). *

ENDORSER ANNUAL DATA FORM

Annual | 2017

New Response for: 1515 Restaurant

Survey Data

Instructions:

This form should be completed to report annual data for endorser participation in the Food Recovery Challenge (FRC). This form must be completed every year that you participate in the Food Recovery Challenge. Typical Endorser activities are listed below and should be quantified where requested. For Endorser activities not listed, please check the Other box and provide a narrative description in the comment field. When possible, please make every attempt to quantify your actions and goals.

CLICK "SAVE DRAFT" TO RETAIN YOUR ENTRIES FOR FUTURE EDITING. PLEASE "MARK COMPLETE" YOUR ANNUAL DATA DURING THE REPORTING SEASON. See the FRC page (<https://www.epa.gov/sustainable-management-food/food-recovery-challenge-frc>) for details. YOUR ANNUAL DATA SHOULD BE SUBMITTED IN CONJUNCTION WITH YOUR ANNUAL GOAL.

Project Description - Please briefly describe your activities completed this year (include any appropriate metrics/measurements in this box or below). *

PROGRAM: EPA - FOOD RECOVERY CHALLENGE

Test Organization

FOOD RECOVERY CHALLENGE AWARDS

Annual | 2018

New Response for: Test Organization

Survey Data

EPA is offering Narrative Awards to eligible FRC participants and endorsers. These awards cover your calendar year 2017 work. Descriptions of the awards and eligibility criteria are provided below.

Participants can apply for the narrative award categories of [source reduction](#), [innovation](#), [education and outreach](#), and [leadership](#).

To be eligible for **Narrative Awards**, a participant must do the following:

- Submit a participation agreement, baseline data and baseline goal in the SMM Data Management System
- Submit 2017 annual data in the SMM Data Management System by early 2018. See the FRC page (<https://www.epa.gov/sustainable-management-food/food-recovery-challenge-frc>) for details.
- Submit 2018 annual goals in the SMM Data Management System by early 2018. See the FRC page (<https://www.epa.gov/sustainable-management-food/food-recovery-challenge-frc>) for details.

Endorsers can apply for the narrative award categories of [endorsers](#), [education and outreach](#), and [leadership](#).

To be eligible for **Narrative Awards**, an endorser must do the following:

- Submit a participation agreement
- Submit a 2017 endorser annual data form in the SMM Data Management System by early 2018. See the FRC page (<https://www.epa.gov/sustainable-management-food/food-recovery-challenge-frc>) for details.
- Submit 2018 endorser annual goals in the SMM Data Management System by early 2018. See the FRC page (<https://www.epa.gov/sustainable-management-food/food-recovery-challenge-frc>) for details.

Please note: You are not limited to one category. Please apply for all categories that fit within the scope of your work in the FRC.

Narrative Award Categories:

- Source Reduction:** This award is issued to a participant who has demonstrated excellence in source reduction efforts, the top tier of the food recovery hierarchy. Wasted food source reduction or prevention is the strategy of preventing wasted food before it is created. Examples of this include better purchase, storage, and handling practices, so that one can prevent wasted food prior to it being generated in the first place. Please note that source reduction does not refer to alternate forms of food recovery, such as donation or composting.
- Innovation:** This award is issued to a participant who has demonstrated the creation and implementation of a new or more effective approach to improve wasted food diversion from landfills or incinerators. Examples of this include a business using the food by-products of another business in an anaerobic digestion facility to produce electricity, composting in urban settings and conducting training and implementing associated practices to prevent and divert wasted food in settings such as airports or music/arts festivals.
- Education and Outreach:** This award is issued to a participant who has raised awareness of sustainable management of food as a sustainability issue. Examples of this include a college campus creating a wasted food mascot, inviting experts to speak in classes on wasted food and its impacts on the environment and dining facilities implementing buffets made of intact, uneaten food items.
- Leadership:** This award is issued to a participant who has demonstrated excellence in improving sustainable management of food practices regionally or nationally with a focus on participants who excelled in upstream diversions from landfills or incinerators through source reduction. Examples of this include an organization tracking the amount, type of, and reason for wasted food; setting prevention goals; partnering with a food rescue organization; establishing contracts and partnerships and participating in regional committees that seek to reduce wasted food.

Endorsers: This award is issued to an endorser who has demonstrated excellence in environmental leadership by county/state government, grocers, universities, as well as other entities about the importance of sustainable management of food and influencing businesses/organizations to join the FRC. Key areas for the endorser award include demonstrating leadership, education and outreach, and innovation. An example of this includes a state government conducting outreach, education and technical assistance to businesses and institutions to aid in implementing a ban on disposal of wasted food.

Please Note: You are not limited to one category. Please apply for all categories that fit within the scope of your FRC work.

Source Reduction Issued to a Participant who has demonstrated excellence in source reduction efforts. Wasted food source reduction or prevention is the strategy of preventing wasted food before it is created. Selection is based on your narrative clearly addressing the following criteria, all weighted equally:

Describe your efforts to measure and track your generation of wasted food:

Describe your efforts to prevent wasted food at the source. Please note that source reduction does not refer to alternate forms of food recovery, such as donation or composting:

What amount of wasted food was prevented (in tons or pounds) and cost savings from your source reduction actions? **(Be sure that the amount you include here matches the wasted food prevention amount you reported in your annual data form.)**

Innovation issued to a Participant who has demonstrated the creation and implementation of a new or more effective method(s) or idea(s) to improve wasted food diversion from landfills or incinerators. Selection is based on your narrative clearly addressing the following criteria, all weighted equally:

What innovative method(s) or idea(s) was used and why was it innovative?

Describe how this innovative method(s) or idea(s) was used:

What outcome did implementation of the method(s) or idea(s) have?

Education and Outreach - Issued to a Participant who has raised awareness of sustainable management of food as a sustainability issue. Selection is based on your narrative clearly addressing the following criteria, all weighted equally:

Describe the method(s) used for outreach or education:

Provide the estimated number of individual organizations reached through your education and outreach activities, as well as providing the names of these organizations, if possible:

Provide any results from your education or outreach activities:

Describe what was significant or unique about your education and outreach activities:

Leadership - Issued to a Participant who has demonstrated excellence in improving sustainable management of food practices regionally or nationally with a focus on those Participants who excelled in upstream diversions from landfills or incinerators through source reduction. Selection is based on your narrative clearly addressing the following criteria, all weighted equally:

What wasted food prevention and reduction activities did your organization undertake that demonstrate leadership?

Describe how your efforts to prevent and reduce wasted food were implemented:

How did your efforts influence or affect other stakeholders such as suppliers or customers?

What were the outcomes from your leadership activities?

Endorsers - Issued to an Endorser who has demonstrated excellence in environmental leadership by county/state government, grocers, universities, and/or venues, as well as other entities about the importance of sustainable management of food and/or influencing businesses/organizations to join the FRC. Key areas of the Endorser award include demonstration of leadership, education and outreach, and innovation. Selection is based on your narrative clearly addressing the following criteria, all weighted equally:

Describe your leadership role in educating businesses/organizations as well as other entities about the importance of sustainable management of food, and/or influencing these organizations to join the FRC:

If possible, provide the number of entities you educated on the FRC and/or influenced to join. List the names of these organizations:

Describe what was significant or unique about your activities to educate businesses/organizations about sustainable management food and/or recruit Participants to the FRC:

SAVE
