

ADDRESSES: NASA Headquarters, Program Review Center (PRC), Room 9H40, 300 E Street SW, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Mr. Andrew Rowe, Designated Federal Officer, Office of Legislative and Intergovernmental Affairs, NASA Headquarters, Washington, DC 20546, (202) 358-4269 or andrew.rowe@nasa.gov.

SUPPLEMENTARY INFORMATION: This meeting will be open to the public up to the capacity of the meeting room. This meeting is also available telephonically and by WebEx. You must use a touch-tone phone to participate in this meeting. Any interested person may dial the toll number 1-415-228-4998 or toll free number 1-888-810-9156 and then the numeric passcode 9872135, followed by the # sign, on both days. NOTE: If dialing in, please “mute” your phone. To join via WebEx, the link is <https://nasaenterprise.webex.com/>. The meeting number is 906 737 987 and the meeting password is 2wMGyBh@ (case sensitive).

The agenda for the meeting will include:

- Export Control Issues
- Intellectual Property Waivers
- Stimulating Commercial Activities on the International Space Station
- Leveraging Excess Commercial Crew Seats to Support Private Sector Habitats and Free-Flying Commercial Space Station Development and Utilization
- Use of the NASA Logo
- Branding and Endorsements Review

Attendees will be requested to sign a register and to comply with NASA Headquarters security requirements, including the presentation of a valid picture ID to NASA Security before access to NASA Headquarters. Foreign nationals attending this meeting will be required to provide a copy of their passport and visa in addition to providing the following information no less than 10 days prior to the meeting: Full name; gender; date/place of birth; citizenship; passport information (number, country, telephone); visa information (number, type, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/position of attendee. To expedite admittance, attendees that are U.S. citizens and Permanent Residents (green card holders) are requested to provide full name and citizenship status no less than 3 working days prior to the meeting. Information should be sent to

Mr. Andrew Rowe, at andrew.rowe@nasa.gov.

Patricia Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

[FR Doc. 2018-23724 Filed 10-30-18; 8:45 am]

BILLING CODE 7510-13-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (18-086)]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to NASA Paperwork Reduction Act Clearance Officer, Code JF000, National Aeronautics and Space Administration, Washington, DC 20546-0001 or Gatrie.Johnson@nasa.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Gatrie Johnson, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF000, Washington, DC 20546, or Gatrie.Johnson@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Ames Research Center, Human Systems Integration Division, manages voluntary safety reporting systems to collect and share safety information including, but not limited to, the NASA Aviation Safety Reporting System (ASRS) and the Confidential Close Call Reporting System (C3RS). Both systems are voluntary reporting systems for the reporting of safety incidents, events, or situations. Respondents include, but are not limited to, any participant involved in safety-critical domains such as aviation or railway operations including commercial and general aviation pilots,

drone operators, air traffic controllers, flight attendants, ground crews, maintenance technicians, dispatchers, train engineers, conductors, and other members of the public.

The collected safety data are used by NASA, Federal Aviation Administration (FAA), Federal Railroad Administration (FRA), and other organizations that are engaged in research and the promotion of safety. The data are used to (1) Identify deficiencies and discrepancies so that these can be remedied by appropriate authorities, (2) Support policy formulation and planning for improvements and, (3) Strengthen the foundation of human factors safety research. Respondents are not reimbursed for associated cost to provide the information. Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

II. Method of Collection

NASA collects this information electronically and that is the preferred manner, however information may also be collected via mail.

III. Data

Title: NASA ASRS and Related Voluntary Safety Reporting Systems.

OMB Number:

Type of Review: Existing Information Collection in use without OMB Approval.

Affected Public: Individuals.

Estimated Number of Respondents: 100,000 annually.

Estimated Time per Response: 30 minutes.

Estimated Total Annual Burden Hours: 50,000 hours.

Estimated Total Annual Cost: \$3.88 M.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collection has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to minimize the burden of the collection of information on respondents. Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information

collection. They will also become a matter of public record.

Gatrie Johnson,

NASA PRA Clearance Officer.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for authorization to collect information under the NASA Federal Acquisition Regulation Supplement (NFS) Clause, 1852.223-70, Safety and Health Measures and Mishap Reporting, formerly entitled "Safety and Health." While the clause is proposed to be revised to eliminate some information collected requirements, two distinct information collection requirements will remain 1) notification of a Type A, B, C, or D Mishap, or a close call as defined in NASA Procedural Requirements (NPR) 8621.1 Mishap and Close Call Reporting, Investigating and Recordkeeping, and 2) quarterly reports specifying lost-time frequency rate, number of lost-time injuries, exposure, and accident/incident dollar losses.

II. Methods of Collection

Electronic.

III. Data

Title: Safety and Health Measures and Mishap Reporting.

OMB Number: 2700-0160.

Type of review: Renewal.

NSF clause 1852.223-70, Safety and health measures and mishap reporting. Under this clause, NASA contractors are to immediately notify the contracting officer when a mishap (Type A, B, C, D or Close Call) occurs. The data the contractors provide to NASA includes incident location, date and time of incident, number of fatalities if known, number of hospitalized employees if known, type of injury if known, type of damage if known, contact person, contact person phone, number, and brief description of the incident.

NASA estimates that the notification of a mishap will take a contractor approximately 4 hours, counting initial notifications, supervisory notifications, and contracting officer notifications. The chart below shows the number of mishaps, by category, reported by NASA contractors for calendar years 2013 and 2014. The Federal Procurement Data System data for fiscal year 2015 shows award of approximately 154 contract actions involved performance on a NASA facility.

Classification	2013	2014
Type A	0	1
Type B	3	1
Type C	125	139
Type D	166	160
Total	294	301

The purpose of tracking mishaps is for oversight of safety measures of current contractors working on Federal facilities and data for future source selections. For purposes of calculating burden, we estimate a given contractor may submit two mishaps notifications in a year and that this will take each notification approximately 4 hours to collect the information needed, review it, and provide it to the contracting officer. Generally, the contractor's supervisory personnel would collect the information. It is likely the firm's safety manager or equivalent position would review the information before submitting it to the contracting officer.

NASA estimates that it will take a contractor approximately 5 hours to prepare and deliver the quarterly report.

A. Annual Information Collection Reporting Burden

1852.223-70—SAFETY AND HEALTH MEASURES AND MISHAP REPORTING

Reporting requirement	Respondents	Responses per respondent	Total responses	Hours per response	Hours estimated
1. Notification of a Type A, B, C, or D Mishap, or close call	154	2	308	4	1,232
2. Quarterly reports specifying lost-time frequency rate, number of lost-time injuries, exposure, and accident/incident dollar losses	154	4	616	5	3,080
Total	6	924	*5	4,312

* This is an average for the total number of hours (4,313) divided by the total number of responses (924) resulting in 4.67 total hours per responses, rounded up to the nearest whole number or 5.

For notifying the contracting officer of a mishap, it is estimated a company supervisor would collect the information, then the company Occupational Health and Safety Specialist would review the information

before it is submitted to the Government.

For calculating the quarterly reports, specifying lost-time frequency rate, number of lost-time injuries, exposure, and accident/incident dollar losses, it is estimated to take approximately 5

hours. This includes an Occupational Health and Safety Specialist gathering the records, analyzing the data, and a company official reviewing the data before the report is submitted to the Government.
