

withdraw yearly, taking an estimated 30 minutes to create and submit the required documentation, with an estimated burden of 4 hours per year.

- *Third party conformity assessment bodies that are audited.*

- We estimate that approximately 228 independent third party conformity assessment bodies each year will be audited, taking approximately 4 minutes to resubmit their Form 223 and accreditation certificate, with an estimated burden of 15.2 hours per year.

- We estimate that approximately 18 firewalled third party conformity assessment bodies will spend 226 minutes collecting and preparing the documentation to submit for an audit, with estimated burden of about 68 hours per year.

- We estimate approximately 25 governmental third party conformity assessment bodies will spend 1 hour collecting and preparing the documentation to submit for an audit, with estimated burden of 25 hours per year.

- *Total Annual Burden.*

Adding all of the annual estimated burden hours results in a total of 8,224 hours for third party conformity assessment bodies per year. At \$38.78 per hour, the total cost of the recordkeeping associated with the Requirements Pertaining to Third Party Conformity Assessment Bodies is approximately \$318,927 (8,224 hours × \$38.78 = \$318,927).

General Description of Collection: On March 12, 2013, the Commission issued a rule Pertaining to Third Party Conformity Assessment Bodies (78 FR 15836). The rule established the general requirements concerning third party conformity assessment bodies, such as the requirements and procedures for CPSC acceptance of the accreditation of a third party conformity assessment body, and prescribed adverse actions that may be imposed against CPSC-accepted third party conformity assessment bodies. The rule also amended the audit requirements for third party conformity assessment bodies and amends the Commission's regulation on inspections

BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0056]

Agency Information Collection Activities; Submission for OMB Review; Comment Request—Safety Standard for Omnidirectional Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC) announces a submission to the Office of Management and Budget (OMB), requesting an extension of approval for a collection of information related to the CPSC's Safety Standard for Omnidirectional Citizens Band Base Station Antennas, previously approved under OMB Control No. 3041-0006. On March 14, 2019, CPSC published a notice in the **Federal Register** announcing the agency's intent to seek this extension. CPSC received no comments in response to that notice.

DATES: Written comments on this request for extension of approval of information collection requirements should be submitted by July 8, 2019.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202-395-6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. In addition, written comments that are sent to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC-2012-0056.

FOR FURTHER INFORMATION CONTACT: Bretford Griffin, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504-7037, or by email to: bgriffin@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Omnidirectional Citizens Band Base Station Antennas.

OMB Number: 3041-0006.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of omnidirectional citizens band base station antennas.

Estimated Number of Respondents: Approximately seven firms supply omnidirectional citizen band base station antennas.

Estimated Time per Response: Based on the information compiled by manufacturers, importers, and private labelers of antennas to test and maintain records for certificates of compliance, we estimate an average of 220 hours per firm for annual testing and recordkeeping.

Total Estimated Annual Burden: 1,540 hours (7 firms × 220 hours).

General Description of Collection: The Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204) establishes performance requirements for omnidirectional citizens band base station antennas to reduce unreasonable risks of death and injury that may result if an antenna contacts overhead power lines while being erected or removed from its site. The regulations implementing the standard (16 CFR part 1204, subpart B) require manufacturers, importers, and private labelers of antennas subject to the standard to test the antennas for compliance with the standard and to maintain records of that testing.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0058]

Agency Information Collection Activities; Submission for OMB Review; Comment Request—Safety Standard for Walk-Behind Power Lawn Mowers

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC) announces a submission to the Office of Management and Budget (OMB), requesting an extension of approval for a collection of information related to testing and recordkeeping requirements in the Safety Standard for Walk-Behind Power Lawn Mowers, previously approved under OMB Control No. 3041-0091. On March 14, 2019, CPSC published a notice in the **Federal Register** announcing the agency's intent to seek this extension. CPSC received no comments in response to that notice.

DATES: Written comments on this request for extension of approval of information collection requirements should be submitted by July 8, 2019.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202-395-6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. In addition, written comments that are sent to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC-2012-0058.

FOR FURTHER INFORMATION CONTACT: Bretford Griffin, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504-7037, or by email to: bgriffin@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Walk-Behind Power Lawn Mowers.

OMB Number: 3041-0091.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of walk-behind power lawn mowers.

Estimated Number of Respondents: Approximately 25 manufacturers and importers of walk-behind power lawn mowers.

Estimated Time per Response: Walk-behind power lawn mowers are manufactured seasonally to meet demand. They are manufactured during an estimated 130 days out of the year.

When they are manufactured, firms are required to test and maintain records of those tests. Staff estimates 3 hours daily for testing and recordkeeping per firm totaling 390 hours per firm (3 hours × 130 days). In addition, to produce labels and apply labels on the newly manufactured lawn mowers, staff estimates 1 hour daily for each firm during the production cycle for a total of 130 hours per firm (1 hour × 130 days).

Total Estimated Annual Burden: 9,750 hours on testing and recordkeeping (25 firms × 390 hours) and 3,250 hours for labeling (25 firms × 130 hours). Aggregate annual burden hours related to testing, recordkeeping, and labeling are estimated to be 520 hours per firm and 13,000 hours for the industry.

General Description of Collection: In 1979, the CPSC issued the Safety

Standard for Walk-Behind Power Lawn Mowers (16 CFR part 1205) to address blade contact injuries. Subpart B of the standard sets forth regulations prescribing requirements for a reasonable testing program to support certificates of compliance with the standard for walk-behind power lawn mowers. 16 CFR part 1205, subpart B.

In addition, section 14(a) of the CPSA (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program. The information collection is necessary because these regulations require manufacturers and importers to establish and maintain records to demonstrate compliance with the requirements for testing and labeling to support the certification of compliance.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0054]

Agency Information Collection Activities; Submission for OMB Review; Comment Request—Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval of a collection of information associated with the CPSC's Safety Standard for Automatic Residential Garage Door Operators (OMB No. 3041-0125). In the **Federal Register** of March 14, 2019, the CPSC published a notice to announce the agency's intention to seek extension of approval of the collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to

the OMB a request for extension of approval of that collection of information, without change.

DATES: Submit written comments on this request for extension of approval of information collection by July 8, 2019.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202-395-6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. In addition, written comments that are sent to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC-2012-0054.

FOR FURTHER INFORMATION CONTACT: Bretford J. Griffin, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504-7037, or by email to: bgriffin@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC has submitted the following currently approved collection of information to OMB for extension:

Title: Safety Standard for Automatic Residential Garage Door Operators.

OMB Number: 3041-0125.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of automatic residential garage door operators.

Estimated Number of Respondents: An estimated 18 firms that conduct performance tests and maintain records based on the test results to maintain UL certification and verify compliance with the rule.

Estimated Time per Response: Based on staff's review of industry sources, each respondent will spend an estimated 40 hours annually on the collection of information related to the rule.

Total Estimated Annual Burden: 720 hours (18 firms × 40 hours).

General Description of Collection: On December 22, 1992, the Commission issued rules prescribing requirements for a reasonable testing program to support certificates of compliance with the Safety Standard for Automatic Residential Garage Door Operators (57 FR 60449). These regulations also require manufacturers, importers, and private labelers of residential garage door operators to establish and maintain records to demonstrate compliance with the requirements for testing to support
