#### **General Instructions:**

Aquacultured Live Rock (ALR) permits issued to one or more permit holders allow the deposition to and harvest of materials from a specific geographic location, or *site*. Use *this* application to <u>renew</u> an ALR permit for a site for which you are listed as the permit holder on the most recent permit.

Use the **Federal Permit Application for Aquacultured Live Rock (NEW)** application to request an ALR permit for a site that has not previously been issued an ALR permit.

If you wish to apply as a new permit holder for an already existing site, see section below on how to conduct an ALR site transfer.

NMFS will not process requests to renew permits until applicants meet all reporting requirements (*e.g.*, deposit reports) specific to the aquacultured live rock fishery. Ensure you comply with all reporting requirements in advance of any renewal application requests to avoid delays.

Under the current agreement between NMFS and the U.S. Army Corps of Engineers (USACE), the total acreage of all aquacultured live rock sites maintained by a single permit holder in Federal waters off the coast of Florida <u>may not exceed 1.0 acres</u>. Applicants desiring to maintain sites that exceed this 1.0 acre limit must contact their local USACE office (<a href="http://www.usace.army.mil/Locations/">http://www.usace.army.mil/Locations/</a>) and inquire about the individual permitting process for the deposit of aquacultured live rock in Federal waters off the coast of Florida.
