Office of the Secretary of Defense Narrative Statement on a Modified System of Records Under the Privacy Act of 1974

- 1. <u>System name and number</u>: Science, Mathematics, and Research for Transformation (SMART) Information Management System, DUSDA 14.
- 2. Nature of proposed modifications to the system: The SMART Scholarship for Service Program hereafter the SMART program requires a competitive application process. Each year applicants apply for the program on line beginning in August at http://smartscholarship.org. The application process closes in December. Information is required so that the application may be evaluated for compliance with statutory eligibility requirements, academic merit, and compatibility with DoD workforce needs. In order to properly manage all the requirements for this program the SMART Information Management Systems (SIMS) was developed by Logistic Management Institute (LMI). The primary use of the SIMS database is to serve as a centralized management system which collects and maintains information pertaining to SMART Scholars. Records may also be used for statistical analysis, tracking, reporting, evaluating program effectiveness, conducting research, and case and business management. Data may also be used to respond to mandated reporting requirements.

The modifications to this notice include the system location, system manager(s) and address, routine uses, notification procedures, record access procedures, and contesting records.

- 3. <u>Authority for the maintenance of the system:</u> 5 U.S.C. 3304, Competitive service, examinations; 10 U.S.C. 2192a, Science, Mathematics, and Research for Transformation (SMART) Defense Education Program; 20 U.S.C. Chapter 17, National Defense Education Program; DoD Instruction 1400.25, Volume 410, DoD Civilian Personnel Management System: Training, Education, and Professional Development; and E.O. 9397 (SSN), as amended.
- 4. <u>Agency's evaluation on the probable or potential effects on the privacy of individuals</u>: The Under Secretary for Research and Engineering viewed the safeguards established for the system to ensure they are compliant with DoD requirements and are appropriate to the sensitivity of the information stored within the system.
- 5. <u>Routine use compatibility</u>: In addition to those disclosures generally permitted under 5 U.S.C. § 552a(b) of the Privacy Act of 1974, as amended, the records contained herein may specifically be disclosed outside the Department of Defense as a routine use pursuant to § 552a(b)(3) as follows:

Routine use a is compatible with the purpose of the collection as it allows the contractors working on a contract for DoD, to accomplish an agency function related to this system of records.

Routine use b is compatible with the purpose of the collection as it allows the sharing of applicants and participants academic reports to the appropriate academic institutions.

Routine use c is compatible with the purpose as to aid in the collection of outstanding debts owed to the Federal government, typically to provide an incentive for debtors to repay delinquent Federal government debts by making these debts part of their credit records.

Routine uses d through h are standard routine uses commonly listed in DoD and other Federal agency System of Records Notices.

Routine uses i and j are in response to the Office of Management and Budget (OMB) requirement in OMB M-17-12 to respond appropriately to a breach of personally identifiable information in this system of records or, as appropriate, to assist another Federal agency or entity in its response to a breach.
