DEPARTMENT OF DEFENSE SUICIDE EVENT REPORT

Welcome

The DoD Suicide Event Report (DoDSER) standardizes suicide surveillance efforts across the services (Air Force, Army, Marine Corps, and Navy) to support the DoD's suicide prevention mission.

The DoDSER program is a collaborative effort among the DoD's Suicide Prevention and Risk Reduction Committee (SPARRC), the Services' Suicide Prevention Program Managers (SPPMs), and the National Center for Telehealth and Technology (T2). The DoDSER is used for a variety of suicide behaviors including suicides, suicide attempts, and some other suicide related behaviors (e.g., deliberate self-harm or some cases in which only suicidal ideation is documented).

Each Service conducts a professional review of records, and conducts interviews where appropriate. This website includes instructions, detailed coding guidance, and computer-based training programs, and the DoDSER webform that collects the comprehensive information about the Service Member and the suicide event.
