## Memo

**Date:** November 29, 2018

**To:** David Marker, Project Director

**From:** Sharon Zack, Administrator Westat IRB *Sharon Zack*

**Subject:** Expedited Amendment Approval of The Childcare Survey of Activity and Wellness (C-SAW) Pilot Study, Project Number 6201.06  
FWA 00005551

I reviewed the materials submitted for the following: **The Childcare Survey of Activity and Wellness (C-SAW) Pilot Study, Project Number 6201.06**. The Westat IRB reviews all studies involving research on human subjects. This project was last reviewed in February 2018.

A request was made for the IRB to conduct a pre-OMB review and approval of the protocol and data collection materials for the Childcare Survey of Activity and Wellness (C-SAW) Pilot Study. It was previously reviewed and approved for cognitive testing and usability testing.

The regulations (45 CFR 46) permit expedited review of minor changes in previously approved activities. I am therefore approving the modifications under expedited authority.

**Please note the following:**

- You are required to submit this study for a continuing review before February 13, 2019.
- In the interim, you are responsible for notifying the IRB Office as soon as possible if there are any injuries to the subjects as well as problems or changes with the study that relate to human subjects.
