

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0960-0788)

TITLE OF INFORMATION COLLECTION: Open-ended Survey to gauge private organizations interest in the Office of Data Exchange and International Agreement’s (ODXIA) Electronic Signature Consent Based Social Security Number Verification (eCBSV).

DESCRIPTION OF ACTIVITY:

Background: Public Law 115-174, Economic Growth, Regulatory Relief, and Consumer Protection Act was enacted to reduce synthetic identity fraud. This law requires SSA to accept an individual’s electronically signed consent (electronic consent), which authorizes SSA to provide financial institutions or “permitted entities” verification of the individual’s name, date of birth, and social security number.

Objectives: SSA may not begin to modify the existing verification system until 50 percent of the program start-up costs are collected from participating entities. SSA is interested in using a survey to gauge potential entities’ interest in the service.

Methodology: The Big Tent Coalition (BTC) will disseminate an open-ended online survey tool via email to Chief Information Officers who are members of the American Bankers Association, and to additional financial organization contacts whose email addresses were derived from aggregate data obtained through S&P Global (<https://www.spglobal.com/en/privacy>).

CERTIFICATION:

I certify the following to be true:

1. The collection is voluntary.
2. The collection is low-burden for respondents and low-cost for the Federal Government.
3. The collection is non-controversial and does not raise issues of concern to other Federal agencies.
4. The results are not intended to be disseminated to the public.
5. Information gathered will not be used for the purpose of substantially informing influential policy decisions.
6. The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the future.
