**Upward Bound (UB) and Upward Bound Math-Science (UBMS)
 Annual Performance Report
 Program Year 2018–09
 Authority: Public Law 102-325, as amended.**

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 17 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit (Title IV, Sections 402A and 402C of the *Higher Education Act of 1965*, as amended; the program regulations in 34 CFR 645; and the Education Department General Administrative Regulations (EDGAR) in 34 CFR 74.51, 75.720, and 75.732). Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to regulations.gov during the public comment period for this collection of information. If you have specific questions about the form, instrument or survey, please contact Federal TRIO Programs, U.S. Department of Education, 400 Maryland Avenue S.W., Washington, D.C. 20202.

B. Certification

The Project Director and Certifying Official are required to sign and date Section I, Part 1 of the 2018–19 Annual Performance Report form to certify the accuracy and completeness of the information submitted electronically; please use the Print button provided on the Submit page. Once the form has been signed, it should be scanned so that it can be uploaded using the functionality of the APR site. Only Section I, Part 1 should be uploaded—not any other portion of the report.

Please review the information in Section I, Part 1 for accuracy and make needed changes before proceeding to the next section of the report form.

I have verified the information in this section.

Warning

Any person who knowingly makes a false statement or misrepresentation on this report is subject to penalties which may include fines, imprisonment, or both, under the United States Criminal Code and 20 U.S.C. 1097.

Further federal funds or other benefits may be withheld under these programs unless this report is completed and filed as required by existing law (20 U.S.C. 1231a) and regulations (34 CFR 75.590 and 75.720).

SECTION I, Part 2 – Competitive Preference Priority (If Applicable)

The 2017 UB and UBMS grant competitions established a competitive preference priority to encourage applicants to propose for their projects activities that were supported by moderate evidence of effectiveness—particularly activities that would increase the likelihood that students would complete high school, enroll in a program of postsecondary education, and complete that program. The priority as it appeared in the application was this:

Moderate Evidence of Effectiveness. Applications supported by evidence of effectiveness that meets the conditions set out in the definition of “moderate evidence of effectiveness” in 34 CFR 77.1 (c).

Below, please indicate whether your project addressed this competitive preference priority in your grant application; if your project did so, please complete the text boxes with concise information about implementation.

- A. Not applicable
 B. Yes

Citation of study used: In the box below, please cite the study that your project used; for example, “Abelman, R., & Molina, A. (2001). Style over substance revisited: A longitudinal analysis of intrusive intervention. *NACADA Journal*, 21(1–2), 32–39.”

[Not to exceed 45 words]

Implementation: Please discuss briefly how your project has implemented the activities from the outset of your grant to the present. Please cover:

- any staff training taken prior to, or during, the intervention;
- the plan used for implementation, including current stage; and
- the number of students participating in the intervention.

Please also include observations, findings, and/or outcomes to date, and explain why the project will or will not continue to use the intervention.

[Not to exceed 300 words]

SECTION I, Part 3 – STEM SUPPLEMENTAL FUNDING

In June 2018, the Department invited UB and UBMS grantees holding 2018 continuation awards under existing UB or UBMS program grants to apply for supplemental STEM awards to carry out activities consistent with one or more of three elements of the Secretary's Supplemental Priorities, as published in the *Federal Register* on March 2, 2018. The three elements are aimed at supporting students' learning and proficiency in STEM fields. For full text of the invitation and elements, please see the Department's June 21, 2018 letter to UB and UBMS project directors at the UB and UBMS "report" pages, <https://www2.ed.gov/programs/trioupbound/report.html> or <https://www2.ed.gov/programs/triomathsci/report.html> .

Activities supported by these supplemental awards were intended to take place during the period June 1, 2018 through August 31, 2019. The Department wishes to collect in the 2018-19 APR all available information on how projects implemented the supplemental awards. Please provide such information in the 2018-19 APR even if your project conducted activities funded by the supplemental award outside your 2018-19 reporting period. Thus, a September-start project that used supplemental STEM funds to serve participants during summer 2018 (part of the project's 2017-18 reporting period) should nevertheless report on these activities in the 2018-19 APR. Similarly, a June-start project that used supplemental STEM funds to serve students in summer 2019 (part of the project's 2019-20 reporting period) should nevertheless report on these activities in the 2018-19 APR.

If your project received this supplemental funding from the Department, please indicate to which of the elements you responded by checking one or more of the boxes below; projects may have undertaken work in one, two, or all three of the elements. Please also indicate the number of students served for each element; a student may be included in the count for more than one element. In addition, provide a brief summary (up to 100 words per element) of the activities your project undertook with funding from the supplemental STEM award; do not report on activities unsupported by the award. To the extent possible, include observations, any outcomes to date, and any "lessons learned"; also please discuss any lasting benefit that the STEM funding might have had for your students and for your project's future work. If your project did not receive supplemental funding, please so indicate in the first box below; do not check any of the remaining three boxes.

The project did not receive supplemental funding.

The project responded to the element aimed at developing students' mastery of key prerequisites to ensure success in all STEM fields; at encouraging such skills as critical thinking and problem-solving, gained through hands-on, inquiry-based learning; or at supporting proficiency in the use of computer applications, leading to students' involvement in developing computer technologies.

Number of participants served under this element: ____

Summary of activities undertaken under this element:

[Not to exceed 100 words.]

- The project responded to the element aimed at creating or expanding partnerships to give students access to internships, apprenticeships, or other learning experiences in STEM fields, including computer science.

Number of participants served under this element: ____

Summary of activities undertaken under this element:

[Not to exceed 100 words.]

- The project responded to the element that sought to increase access to STEM coursework and hands-on learning opportunities, including innovative delivery mechanisms.

Number of participants served under this element: ____

Summary of activities undertaken under this element:

[Not to exceed 100 words.]

SECTION I, Part 4 – Information on Target Schools

The Upward Bound regulations define target schools as **those designated by the grantee as a focus of project services**. So as to have more readily useable data on these schools on an annual basis, TRIO requires the data below. Please include only those schools that meet the regulatory definition above. For private and parochial target schools, in the NCES ID column please use 666666666666 and 777777777777, respectively.

Target Schools Served by the Project During the Reporting Period				
Name of school	State	NCES ID	Was school listed in your 2017 grant application? (Y/N)	Number of participants served in reporting period
[Final line] Total of participants served in reporting period 2018-19 at a target school				

Number of participants who **did not attend a target school at all** during reporting period 2018-19: _____

Note: The number of participants served in reporting period 2018-19 who attended a target school, plus the number of participants served who did not attend a target school at all during the reporting period, must equal the number of new, continuing, reentry, and transfer participants served in 2018-19 (that is, all participants coded 1, 2, 3, or 6 in Section II, field #27, Participant Status, for reporting year 2018-19).

				<p>Names entered in field #67 may be in a variety of formats, e.g., John Doe, John D. Doe, Jane Smith-Doe, Jane Smith Doe, John Doe II, John Doe, Jr. Moreover, you will be able to update this field in subsequent reporting periods.</p> <p>If the student has not changed his or her name, the project need not complete field #67.</p>		

Important note regarding postsecondary fields (#52–66): In these fields, enter "7" or a series of "7s," where requested, for students who have left a program of postsecondary education without completing it. Enter "8" or a series of "8s" as specified for participants who have not yet completed a program of secondary education. Students in dual enrollment programs should not be reported as enrolled in postsecondary education unless they enroll in a postsecondary program after their high school graduation. Enter "9" or a series of "9s" for high school graduates who have not yet enrolled in a program of postsecondary education. Remember that data in these fields should reflect information available to the project as of the date on which the APR is submitted. A participant is considered enrolled if he or she has completed registration requirements (excluding payment of tuition and fees) at the institution he or she is attending. ***Projects should report all participants' postsecondary data, even if a participant does not qualify for a cohort.***

Note to the Data Collector: Please see Privacy Act Statement below and convey its content to students and parents as you collect the information.

Privacy Act Statement - In accordance with the *Privacy Act of 1974* (Public Law No. 93-579, 5 U. S.C. 552A), you are hereby notified that the Department of Education is authorized to collect information to implement the Upward Bound program under Title IV of the *Higher Education Act of 1965*, as amended (Pub. Law 102-325, sec. 402A and 402C). In accordance with this authority, the Department receives and maintains personal information on participants in the Upward Bound program. The principal purpose for collecting this information is to administer the program, including tracking and evaluating participants' academic progress. Providing the information on this form is voluntary; failure to disclose personal information will not result in denial of any right, benefit, or privilege to which the participant is entitled. The information that is collected on this form will be retained in the program files and may be released to other Department officials in the performance of official duties. The information will not be disclosed outside of the Department, except as allowed by the *Privacy Act of 1974*, pursuant to the routine uses identified in the System of Records Notice titled "TRIO Programs Annual Performance Report (APR) System (TRIO APR)."
