

# ENERGY STAR® Verification Testing Summary Report

Name of CB:

Verification Testing Period

*This tab is intended for models that have completed testing during the reporting period. If testing has not been completed but is in progress, please*  
**Please note: all cells highlighted in yellow MUST be filled out OR provide a reason in column W.**

United States ENVIRONMENTAL PROTECTION AGENCY Washington, DC 20460 Office of Atmospheric Programs  
OMB Control No. 2060-0528

*The public reporting and recordkeeping burden for this collection of information is estimated to average 20.5 hours per response. Send comments to Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.*

Comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing re

*respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protecti*

ion Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460.

Update: Prior to 2017, lifetime testing completion was reported on this report. N

General Instructions		
Lighting Products/ Fans with Lighting	No Lifetime Testing Required	
	Lifetime Testing Required	<u>Only Initial Completed During This Reporting Period</u>
		<u>Initial &amp; Lifetime Completed During This Reporting Period</u>

		<u>Initial Testing Completed Previously;</u> <u>Lifetime Testing Completed During This</u> <u>Reporting Period</u>

# How to Use the Verification Te

Moving forward, only initial testing will be reported on the verification and lifetime testing for ceiling fans with lighting.

List verification testing results for products where testing has been completed.

For **lighting products requiring life testing**, testing should be reported in the "completed\_testing" tab when **initial** testing has been completed.

For **ceiling or vent fan products with lighting requiring life testing**, testing should be reported in the "completed\_testing" tab when fan testing **AND** initial testing have finished. Use the date when both sets of testing have been completed.

Required cells will be highlighted after the product category has been selected.

Indicate in **column M** "No Lifetime Testing Required."

Indicate in **column N** the date of testing completion. For fan products with lighting, both fan and lighting testing must be complete.

Indicate in **column M** "Initial Testing Completed."

Indicate in **column N** the initial testing or initial and fan testing completion date.

Indicate in **column O** the projected lifetime testing completion date.

Indicate in **column M** "Initial and Life Testing Completed."

Indicate in **column N** the initial testing or initial **AND** fan testing completion date.

Indicate in **column O** the lifetime testing completion date.

Ensure Initial Testing was reported on previous report. Inform EPA if initial testing was not previously reported to EPA.

**Do not report Lifetime testing completion on this report.**

# Testing Summary Report Template

Testing summary report. EPA will request updates from CBs on the testing of ventilating fans with lighting, and lighting products.

## In Progress Tab

List verification testing information for products where testing has not been completed, but products have been selected, procured, or begun testing.

Indicate in **column B** the procurement status of each model where testing has not been completed.

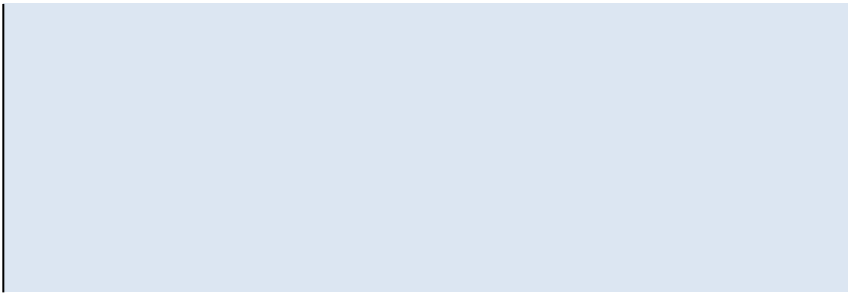

*Ex: partner has not been contacted, partner contacted, product in transit, testing in progress, awaiting determination, etc.*

Required cells will be highlighted after the product category has been selected.
