For the model numbers in Sections I and V, the company named in the Partner Name field of Section I is undertaking the following measures. Note: If you seek to deviate from the proposed measures after EPA has approved them, you must notify EPA prior to making any changes.

**1) Inform the distribution chain that the model(s) is/are not ENERGY STAR certified:**

EPA requires that you inform all downstream parties to whom you directly sold the model as ENERGY STAR certified in the last two years, including distributors, online and in-store retailers, consumers, and other affected organizations (e.g., utilities), that the model(s) is/are no longer ENERGY STAR certified. Specifically, the following statement must be included in all communications: "This product failed verification testing and has been disqualified from ENERGY STAR." Use the table below to submit a list of these entities. Note: If you need additional rows, please submit along with this form a word document listing the other organizations contacted. Enter "N/A" for any unused rows.

Organization Name:	Organization Type:	Proposed or Actual Completion Date:
