^aOverhead is calculated to be equal to the cost of labor.

^b The cost of purchased services (for example, cost of attest auditors) is calculated at twice the Employer Cost. This figure makes for an easily understandable estimate, and matches past feet have received from industry on the actual cost of such services.

The estimates used the Bureau of Labor Statistics figures from "National Industry-Specific Occu These were the most recent estimates available at the time of development of the proposed rt Total dback we
