About the surveys

The Federal Reserve *2019 Networks, Processors, and Issuers Payments Surveys (NPIPS)* collects the number and dollar value of different types of domestic and cross-border electronic payment transactions and related information including third-party fraud originated from US-domiciled accounts during the calendar year 2018, and made by ACH, credit card, debit card, prepaid card, or alternative payment initiation methods. Data from your response will contribute to estimates of the national aggregate number and value of electronic payments made by these transaction methods. The Federal Reserve will compare the results from this 2019 study to those of previous studies conducted since 2001.

Confidentiality

Any information you provide for this survey is strictly confidential. Individual responses to the survey will not be shared with the public or the industry.

Your participation

To achieve the most reliable results, it is important that you respond completely and accurately.

Please leave no survey item blank.

There are three possible ways to respond to a survey item that requests a numeric value:

1. If your organization has volume for the item requested and the volume is known or can be accurately estimated, please enter the amount. (Enter "0" if the amount equals zero.)
2. If your organization has volume for the item requested but the volume is unknown, nonzero, and cannot be accurately estimated, please enter "NR" (not reported). (Do not enter "0" if the volume exists but the amount is unknown.)
3. If your organization does not have volume for the item requested (i.e., the item requested does not apply to your organization), please enter "0".

Private-Label Credit Card Merchant Issuer Payment Survey

For total private-label credit card transactions, please include all those originated from US-domiciled accounts and made with a private-label credit or charge card for which your organization processed in-house. Include both consumer and business/government card transactions.

Do not include: General-purpose (i.e., network-branded Visa, MC, Amex, Discover) credit, debit, or prepaid card transactions, or transactions originated from foreign accounts. Also, according to your answers to questions 1 and 2 below, please do not include data associated with transactions for which your organization was only the receivables owner but not the transaction processor.

Walk-In Bill Payment Processor Survey

For total walk-in bill payments, please include all transactions originated from US-domiciled accounts and made in person that your organization received or processed on behalf of billers. Include only payments made at locations (e.g., kiosks, ATMs, agents, or retailers) other than those operated by the biller.

Do not include: Online, mail, or telephone bill payments. Do not include in-person bill payments made at locations operated by the biller or bill payments originated from foreign accounts. Also exclude declined transactions.
