

employee or a full-time contractor supporting the Departments of Commerce or Interior.

When reviewing nominations, NMFS, in consultation with the U.S. Fish and Wildlife Service, will consider the following six criteria:

- (1) Ability to make time available for the purposes of the SRG;
- (2) Knowledge of the species (or closely related species) of marine mammals in the SRG's region;
- (3) Scientific or technical achievement in a relevant discipline, particularly the areas of expertise identified above, to be considered an expert peer reviewer for the topic;
- (4) Demonstrated experience working effectively on teams;
- (5) Expertise relevant to current and expected needs of the SRG, in particular, expertise required to provide adequate review and knowledgeable feedback on current or developing stock assessment issues, techniques, etc. In practice, this means that each member should have expertise in more than one topic as the species and scientific issues discussed in SRG meetings are diverse; and
- (6) No conflict of interest with respect to their duties as a member of the SRG.

Next Steps

Following review, nominees who are identified by NMFS as potential new members must be vetted and cleared in accordance with Department of Commerce policy. NMFS will contact these individuals and ask them to provide written confirmation that they are not registered Federal lobbyists or registered foreign agents, and to complete a confidential financial disclosure form, which will be reviewed by the Ethics Law and Programs Division within the U.S. Department of Commerce's Office of General Counsel. All nominees will be notified of a selection decision in advance of the 2020 SRG meetings.

Dated: August 14, 2019.

Cathryn E. Tortorici,

*Acting Director, Office of Protected Resources,
National Marine Fisheries Service.*

[FR Doc. 2019-17756 Filed 8-16-19; 8:45 am]

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: NMFS Implementation of International Trade Data System.

OMB Control Numbers: 0648-0732; 0648-0739; 0648-0776.

Form Number(s): None.

Type of Request: Regular; This is a revision of a currently approved collection.

Number of Respondents: 1800.

Average Hours per Response: 20 minutes.

Burden Hours: 103,717.

Needs and Uses: Pursuant to domestic statutory authorities and/or multilateral agreements, NMFS has implemented a number of trade monitoring programs to collect information from the seafood industry regarding the origin of certain fishery products. The purpose of these programs is to determine the admissibility of the products in accordance with the specific criteria of the trade measure or documentation requirements in effect for the species of fish that are being imported or exported. The Security and Accountability for Every Port Act of 2006 (SAFE Port Act, Pub. L. 109-347) requires all Federal agencies with a role in import admissibility decisions to collect information electronically through the International Trade Data System (ITDS). U.S. Customs and Border Protection (CBP) developed the Automated Commercial Environment (ACE) as an internet-based system for the collection and dissemination of information for ITDS.

NMFS works with CBP to designate certain codes from the Harmonized Tariff Schedule of the United States as requiring additional information when an entry is electronically filed in ACE. That information (harvesting vessel, ocean area of catch, fishing gear, date and port of landing, etc.) is used by NMFS to determine that the fish products in the shipment were lawfully acquired, properly labeled and are admissible into U.S. commerce. Trade permits are issued by NMFS to importers and exporters of the designated fish species so that the import/export documentation requirements can be communicated to the trade community and to provide a point of contact when shipment documentation problems are encountered at the border.

Electronic reporting of trade data has been approved by OMB under three separate information collections: 0648-0732, 0648-0739 and 0648-0776. This information collection request proposes to merge the three collections under 0648-0732 and extend the approval for an additional three years.

Affected Public: Importers and exporters of seafood subject to catch documentation requirements.

Frequency: Annual trade permits; electronic reports upon import/export; provision of supply chain documents when selected for audit.

Respondent's Obligation: Affected importers and exporters must obtain an annual trade permit from NMFS. An electronic message set specific to NMFS must be filed electronically in ACE upon import/export of fish species subject to documentation requirements. When imports are selected for audit, the importer must furnish supply-chain records to NMFS for examination.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: West Coast Region Seattle Federal Fisheries Permits.

OMB Control Number: 0648-0203.

Form Number(s): None.

Type of Request: Regular submission (extension of a currently approved collection).

Number of Respondents: 552.

Average Hours per Response: Permit renewals: 20 minutes; Permit transfers: 30 minutes; Sablefish Ownership

Interest form: 5 minutes; EFP Applications: 32 hours; EFP Trip Notifications: 2 minutes; EFP Harvest Plans: 16 hours; EFP Data Reports: 2 hours; EFP Summary Reports: (interim report) 4 hours; (final report) 20 hours; Letters of Acknowledgement: 6 hours; Exempted Educational Activity Authorization, 6 hours.

Burden Hours: 2,024 hours.

Needs and Uses: This request is for a revision and extension of a currently approved information collection.

The Magnuson-Stevens Act (16 U.S.C. 1801) provides that the Secretary of Commerce is responsible for the conservation and management of marine fisheries resources in Exclusive Economic Zone (3–200 miles) of the United States (U.S.). NOAA Fisheries, Northwest Region manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan. The regulations implementing the Pacific Groundfish Fishery require that those vessels participating in the limited entry fishery to be registered to a valid limited entry permit. Participation in the fishery and access to a limited entry permit has been restricted to control the overall harvest capacity.

NOAA Fisheries seeks comment on the extension of permit information collections required for: (1) Renewal and transfer of Pacific Coast Groundfish limited entry permits; (2) implementation of certain provisions of the sablefish permit stacking program as provided for at 50 CFR 660.231 and 660.25; and (3) issuing and fulfilling the terms and conditions of certain exempted fishing permits (EFPs). The regulations implementing the limited entry program are found at 50 CFR part 660, subpart G.

Also, NOAA Fisheries requires an information collection to implement certain aspects of the sablefish permit stacking program which prevents excessive fleet consolidation. As part of the annual renewal process, NOAA Fisheries requires a corporation or partnership that owns or holds (as vessel owner) a sablefish endorsed permit to provide a complete ownership interest form listing all individuals with ownership interest in the entity. Similarly, any sablefish endorsed permit transfer involving registration of a business entity requires an ownership interest form if either the permit owner or vessel owner is a corporation or partnership. This information is used to determine if individuals own or hold sablefish permits in excess of the limit of three permits. Also, for transfer

requests made during the sablefish primary season (April 1st through October 31st), the permit owner is required to report the remaining tier pounds not yet harvested on the sablefish endorsed permit at the time of transfer.

Applicants for an exempted fishing permit (EFP) must submit written information that allows NOAA Fisheries and the Pacific Fishery Management Council to evaluate the proposed exempted fishing project activities and weigh the benefits and costs of the proposed activities. The Council makes a recommendation on each EFP application and for successful applicants, NOAA Fisheries issues the EFPs which contains terms and conditions for the project including various reporting requirements. The information included in an application is specified at 50 CFR 600.745(b)(2) and the Council Operating Procedure #19. Permit holders are required to file pre-season harvest plans, interim and/or final summary reports on the results of the project, and in some cases individual vessels and other permit holders are required to provide data reports (*i.e.*, logbooks and/or catch reports). The results of EFPs are commonly used to explore ways to reduce effort on depressed stocks, encourage innovation and efficiency in the fishery, provide access to constrained stocks by directly measuring the bycatch associated with such strategies, and evaluate/revise current and proposed management measures.

Letters of Acknowledgement (LOAs) and Exempted Educational Activity Authorizations (EEAAs) were historically collected under OMB control number 0648–0309. To reduce burden estimates, National Marine Fisheries Service (NMFS) Headquarters proposed to move LOAs and EEAAAs to their respective region's permit family-of-forms collections. OMB control number 0648–0309 will need to remain in place until all of the regions have moved the necessary elements into the respective regional PRA collections.

NMFS may grant exemptions from fishery regulations for educational or other activities (*e.g.*, using non-regulation gear). A NMFS Regional Administrator or Director may authorize, for limited testing, public display, data collection, exploratory fishing, compensation fishing, conservation engineering, health and safety surveys, environmental cleanup, and/or hazard removal purposes, the target or incidental harvest of species managed under an FMP or fishery regulations that would otherwise be

prohibited. An EEAA is a permit issued by the Regional Office to accredited educational institutions that authorize, for educational purposes, the target or incidental harvest of species managed under a fisheries management plan or fishery regulations that would otherwise be prohibited. EEAAAs are generally of limited scope and duration and authorize the take of the amount of fish necessary to demonstrate the lesson. Regulations at 50 CFR 600.745(b) supplement existing information collections required by the various fishery management plans establishing minimum standards for these activities. Researchers are requested to submit reports of their scientific research activity after its completion.

An EEAA is a permit issued by the Regional Office to accredited educational institutions that authorize, for educational purposes, the target or incidental harvest of species managed under an FMP or fishery regulations that would otherwise be prohibited. EEAAAs are generally of limited scope and duration, and authorize the take of the amount of fish necessary to demonstrate the lesson. Researchers are requested to submit reports of their scientific research activity after its completion.

LOAs are required under Section 101(a)(5)(A) of the Marine Mammal Protection Act (MMPA) of 1972 for the incidental take of marine mammals during fisheries surveys and related research activities conducted by the Northwest Fisheries Science Center (NWFSC), NMFS. Management of certain marine mammals falls under the jurisdiction of the NMFS under the MMPA and Endangered Species Act (ESA) and mechanisms exist under both the ESA and MMPA to assess the effect of incidental takings and to authorize appropriate levels of take.

Affected Public: Primary respondents are businesses or other for-profit organizations (*e.g.*, groundfish fishermen, fishing companies, and partnerships), state fisheries agencies, non-profit institutions, or fishing associations who sponsor research carried out under exempted fishing permits.

Frequency: Reporting would generally occur annually, but could occur monthly or semi-annually depending on the information requested.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed

information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Oak Ridge

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Oak Ridge. The Federal Advisory Committee Act requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, September 11, 2019, 6:00 p.m.

ADDRESSES: DOE Information Center, Office of Science and Technical Information, 1 Science.gov Way, Oak Ridge, Tennessee 37831.

FOR FURTHER INFORMATION CONTACT: Melyssa P. Noe, Alternate Deputy Designated Federal Officer, U.S. Department of Energy, Oak Ridge Office of Environmental Management (OREM), P.O. Box 2001, EM-942, Oak Ridge, TN 37831. Phone (865) 241-3315; Fax (865) 241-6932; Email: *Melyssa.Noe@orem.doe.gov*. Or visit the website at <https://energy.gov/orem/services/community-engagement/oak-ridge-site-specific-advisory-board>.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda

- Welcome and Announcements
- Comments from the Deputy Designated Federal Officer (DDFO)
- Comments from the DOE, Tennessee Department of Environment and Conservation, and Environmental Protection Agency Liaisons
- Presentation: Update on the Mercury Treatment Facility
- Public Comment Period
- Motions/Approval of August 24, 2019 Meeting Minutes

- Status of Outstanding Recommendations
- Alternate DDFO Report
- Committee Reports
- Adjourn

Public Participation: The meeting is open to the public. The EM SSAB, Oak Ridge, welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Melyssa P. Noe at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to the agenda item should contact Melyssa P. Noe at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Melyssa P. Noe at the address and phone number listed above. Minutes will also be available at the following website: <https://energy.gov/orem/listings/oak-ridge-site-specific-advisory-board-meetings>.

Signed in Washington, DC, on August 14, 2019.

LaTanya Butler,

Deputy Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Notice of Request for Information (RFI) on Engaging Governors To Advance State Energy Priorities

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Request for information (RFI).

SUMMARY: The U.S. Department of Energy (DOE) invites public comment on its Request for Information (RFI) number DE-FOA-0002098 regarding Engaging Governors to Advance State Energy Priorities. DOE's Office of Energy Efficiency and Renewable Energy (EERE), State Energy Program (SEP) seeks information on organizations who are able to support

state officials serving in the executive branch of state government; in particular, Governors and/or their designated energy representative(s).

DATES: Responses to the RFI must be received by 5:00 p.m. (ET) on September 18, 2019.

ADDRESSES: Interested parties are to submit comments electronically to: *GovernorsRFI_DOEWIP@ee.doe.gov*. Include Engaging Governors to Advance State Energy Priorities in the subject of the title. Responses must be provided as attachments to an email. The complete RFI document is located at <https://eere-exchange.energy.gov/>.

FOR FURTHER INFORMATION CONTACT: Questions may be addressed to Greg Dierkers at *gregory.dierkers@ee.doe.gov* or 202-287-1921. Further instruction can be found in the RFI document posted on EERE Exchange.

SUPPLEMENTARY INFORMATION: The purpose of this RFI is to solicit feedback from industry, academia, nonprofit organizations, and other organizations that have extensive experience working with the senior state officials, including Governors and/or their designated energy representative(s), serving the nation's 55 states and territories. SEP is specifically interested in information on such organizations' ability and experience in providing direct support to states through training on best practices and the development and dissemination of technical assistance programs. The desired outcome is to improve how SEP delivers technical assistance that helps states improve the affordability, reliability, and resiliency of energy systems. The RFI is available at: <https://eere-exchange.energy.gov/>.

Confidential Business Information

Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well marked copies: One copy of the document marked "confidential" including all the information believed to be confidential, and one copy of the document marked "non-confidential" with the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include: (1) A description of the items; (2) whether and why such items are customarily treated as confidential within the industry; (3) whether the information is
