

SUPPORTING STATEMENT
U.S. Department of Commerce
National Telecommunications and Information Administration
State and Local Implementation Grant Program 2.0
Closeout Requirements
OMB Control No. XXXX-XXXX

A. JUSTIFICATION

In order to meet the objectives of the State and Local Implementation Grant Program 2.0 (SLIGP 2.0), the U.S. Department of Commerce (DOC), National Telecommunications and Information Administration (NTIA) requests approval for the SLIGP 2.0 Closeout Form from the Office of Management and Budget (OMB).

1. Explain the circumstances that make the collection of information necessary.

Following the tragic events of September 11, 2001, the 9/11 Commission recommended the establishment of a nationwide, interoperable public safety communications network to resolve the communications challenges faced by emergency responders nationwide. The Middle Class Tax Relief and Job Creation Act of 2012 (Act) (Pub. L. 112-96, H.R. 3630, 126 Stat. 156) was enacted February 22, 2012.¹ The Act meets a long-standing national priority and critical infrastructure need to create a single, interoperable, nationwide public safety broadband network (NPSBN) that allows law enforcement officers, fire fighters, emergency medical service professionals, and other public safety officials to effectively communicate with each other across agencies and jurisdictions. Public safety responders have been hindered in their ability to respond in a crisis situation due to incompatible communications networks and often outdated communications equipment. Therefore, the design and deployment of this NPSBN established by the Act is critical to provide emergency responders the ability to communicate on a secure, reliable, and dedicated interoperable network during emergencies and uses technology to improve response time, keep communities safe, and save lives.

The Act established the First Responder Network Authority (FirstNet) as an independent authority within the National Telecommunications and Information Administration (NTIA) and authorized it to take all actions necessary to ensure the design, construction, and operation of a nationwide NPSBN, based on a single, national network architecture.² FirstNet's responsibilities, at a minimum, are ensuring nationwide standards for the use of and access to the network; issuing open, transparent, and competitive requests for proposals (RFPs) to build, operate, and maintain the network; encouraging these RFPs to leverage, to the maximum extent economically desirable, existing commercial wireless infrastructure to speed deployment of the

¹ Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96, 126 Stat. 156 (2012) (Act) (codified at 47 U.S.C. 1401 *et seq.*).

² 47 U.S.C. 1424, 1426(b)(1).

network; and overseeing contracts with non-federal entities to build, operate, and maintain the network.³

The Act also charged NTIA with establishing a grant program, the State and Local Implementation Grant Program (SLIGP), to assist state, regional, tribal, and local jurisdictions with identifying, planning, and implementing the most efficient and effective means to use and integrate the infrastructure, equipment, and other architecture associated with the NPSBN to satisfy the wireless broadband and data services needs of their jurisdictions.⁴

The Act's framework outlined that FirstNet closely coordinates its activities with state, regional, tribal, and local governments and imposed a statutory requirement that FirstNet consult with these entities as it takes all actions necessary to build, deploy, and operate the NPSBN.⁵ Specifically, the Act required FirstNet to consult with state, regional, tribal, and local governments about the distribution and expenditure of any amounts required to carry out its responsibilities to plan, build, operate, and maintain the NPSBN.

Additionally, the Act specified that these required consultations occur between FirstNet and the Single Point of Contact (SPOC) that the state designated in its original SLIGP grant application.⁶ The original SLIGP award provided recipients needed funding to support their engagement in consultations as required of FirstNet under the Act.

SLIGP 2.0

In 2013, NTIA awarded \$116.5 million in grant funds to 54 state and territorial recipients between July 2013 and June 2014. The original grants expired February 28, 2018, and many recipients spent less than expected, leaving leftover funds. NTIA leveraged excess funds of \$33.3 million from the original SLIGP grants to make a second round of grant awards, SLIGP 2.0. The SLIGP 2.0 grants provide funding to assist State, regional, tribal, and local jurisdictions to engage effectively with FirstNet and provide it with information needed to continue with planning the NPSBN in an effective and timely manner, as required by the Act.

SLIGP 2.0 recipients' periods of performance are currently scheduled to end in early 2020. Following the award end date, recipients will be required to complete grant closeout activities within 90 days. The purpose of closeout is to capture a final account of recipient activities and how these activities contributed to overall program goals. To ensure effective grant oversight and management, NTIA developed a closeout report form for SLIGP 2.0 recipients to complete as part of post-award monitoring and closeout activities at the end of the period of performance. The closeout form serves as a summary of grant-funded recipient activities over the entire award period and ensures that recipients comply with all necessary closeout procedures. The closeout form will ask recipients to aggregate their cumulative progress toward program priority areas identified in their quarterly performance progress reports (PPRs), including individuals sent to

³ 47 U.S.C. 1426(b)(1)(A)-(D).

⁴ 47 U.S.C. 1442(a).

⁵ 47 U.S.C. 1422(b)(2)(B).

⁶ 47 U.S.C. 1426(c)(2)(B); 47 U.S.C. 1442(d).

broadband conferences, staff hired, contracts executed, governance meetings held, and stakeholder events convened. Recipients will also be asked to report on their cumulative expenditures throughout the period of performance in each object class category, including personnel, fringe, travel, equipment, materials/supplies, contractual, other, and indirect costs.

NTIA uses the collection of information to monitor and evaluate how SLIGP 2.0 grant recipients are achieving the core purposes of the program established by the Act. The information collected in the closeout report form will ensure that final data effectively assesses the success of SLIGP 2.0 recipients in implementing their project goals.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

The specific information covered by this information collection package consists of the following: Closeout Report Form.

Recipients will complete the closeout report once at the end of their period of performance, or when their grant activities have been completed, and submit the form to the SLIGP 2.0 Program Office via email. To increase transparency, NTIA will post approved closeout reports on the SLIGP 2.0 website.

This information collection is designed to obtain information that meets the Information Quality Guidelines for NTIA.⁷ The guidelines establish standards for the utility, integrity, and objectivity of information disseminated by NTIA.

NTIA has contracted with the National Institute of Standards and Technology (NIST) to maintain the electronic data in the Grants Management Information System (GMIS). NTIA, through NIST, will maintain the integrity of the electronic data by safeguarding it consistent with acceptable standards of operation. NTIA will maintain control of paper and electronic SLIGP closeout reports to ensure their security. Closeout reports will be retained consistent with records retention requirements for financial assistance documents.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

NTIA receives electronic submissions of closeout reports from recipients via the Program Office email account and Federal Program Officer (FPO) email accounts.

4. Describe efforts to identify duplication.

⁷ See Section 515 Standards: Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility, and Integrity of Information Disseminated by the National Telecommunications and Information Administration (Sept. 25, 2002), available at www.ntia.doc.gov/ntiahome/occ/ntiaiqguidelines_09252002.htm.

Recipients' closeout reports are unique to this program, and the information to be collected is not generally available from other sources.

Out of an abundance of concern for recipients, NTIA has designed the SLIGP 2.0 Closeout Report Form to allow recipients to provide only the information relevant to the purpose of the grant.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize the burden.

This collection of information is limited to States and U.S. Territories that are recipients of a SLIGP 2.0 grant and does not involve small businesses or other small entities.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

Without the information requested, NTIA could not effectively ensure that recipients are spending their grant dollars in a way that is consistent with the purposes of the Act and the specific purposes listed therein for the SLIGP 2.0.⁸ Furthermore, NTIA could not evaluate recipients' progress toward stated allowable activities, which are inherent in the Act and the Notice of Funding Opportunity (NOFO). For these reasons, if NTIA did not request this information in the closeout report, NTIA would fail to meet the purpose of the Act, taxpayer money could be wasted, and SLIGP 2.0 would not produce the benefits intended under the Act.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

This information collection is consistent with OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

NTIA published a 60-Day Notice in the *Federal Register* on May 13, 2019 (84 Fed. Reg. 20862) to solicit public comment on the closeout reporting process pursuant to the Paperwork Reduction Act. NTIA did not receive any public comments.

⁸ See 47 U.S.C. 1441(c).

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

NTIA will not provide gifts or payments to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

NTIA has informed recipients that approved closeout reports will be posted on the SLIGP 2.0 website and that recipients should not include any names or contact information on the form that they do not want to be publically available. NTIA will protect confidential and proprietary information from public disclosure to the fullest extent authorized by applicable law, including the Freedom of Information Act, as amended (5 U.S.C. 552 *et seq.*), the Trade Secrets Act, as amended (18 U.S.C. 1905 *et seq.*), and the Economic Espionage Act of 1996, as amended (18 U.S.C. 1831 *et seq.*).

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

This collected information does not contain any questions of a sensitive nature.

12. Provide an estimate in hours of the burden of the collection of information.

NTIA estimates a burden of 25 hours per recipient to complete closeout reports.

Number of Respondents: 46

Frequency of Response: Once (at the end of the period of performance)

Total Number of Responses Annually: 46

Estimated Number of Hours per Response: 25

Estimated Total Annual Burden Hours: 1,150

13. Provide an estimate of the total annual cost burden to the respondents or recordkeepers resulting from the collection (excluding the value of the burden hours in Question 12 above).

The financial cost to recipients will include staff time. NTIA will fund reasonable expenses for state agency staff that spend time completing the closeout report. To estimate reasonable staff expenses for filling out the closeout report, NTIA reviewed the Bureau of Labor Statistics (BLS) Occupational Outlook Handbook and determined that the Administrative Services Manager description closely aligns with the positions of most SLIGP 2.0 recipient staff responsible for completing the closeout report. BLS lists an average salary for this position as \$96,180 annually,

amounting to \$46.24 per hour. With an estimated annual burden of 1,150 hours, the total annual cost burden to respondents is \$53,176.

14. Provide estimates of annualized cost to the Federal government.

The costs to the Federal government for this information collection also will include: (1) NTIA staffing; (2) Contract Services to support grant processing and monitoring; (3) NIST Grants Office Services to review financial information; and (4) other related expenses. The administrative budget ceiling for SLIGP 2.0 equals \$8.9 million and is allocated over a full four-year period.

15. Explain the reasons for any program changes or adjustments.

This is a new collection, thus, there are no program changes or adjustments.

16. For collections whose results will be published, outline the plans for tabulation and publication.

NTIA may tabulate certain information from recipients' approved closeout reports (*e.g.*, number of staff hired, governance meetings held) and distribute it at briefings, presentations, as requested by recipients, or in reports to Congress to meet the Act's reporting requirements after award.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

The standard PRA information will be displayed on the closeout report form.

18. Explain each exception to the certification statement.

No exceptions are requested.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

The collection of information will not employ statistical methods.
