Patient Registration Data Fields

September 12, 2018

Distribution Statement D: Distribution authorized to the Department of Defense and U.S. DoD contractors only; Administrative or Operational Use; 23AUG2017. Other requests shall be referred to Mr. Matthew G. Hudson, Contracting Officer, DHMSM, Space and Naval Warfare Systems Command.

Patient Registration Data Fields

- The screen captures reflect the data fields associated with the patient registration process in MHS GENESIS.
- The following patient type was selected to show the data fields associated with a dependent family member: Dependent Family Member of an active duty service member
- Test data was used to support this requirement.

Patient Registration – Patient Contact

- Below is the main registration window with data entry fields that range from Last Name to LPE Created
- All **yellow** highlighted data fields are required entry fields
- The data fields boarded in **RED** reflect data provided by DEERS after the DEERS retrieve function is performed. Test PHI/PII data has also been blocked from this presentation.
- The 11 tabs from left to right have additional data entry fields to be completed in order to fully register the patient
 - Patient Contact Information Tab: Consists of data fields capturing home and temporary addresses

Patient Registration – Patient Info.

- Patient Information Tab: Consists of personal demographic data entry fields

The screenshot shows the 'Patient Information' tab selected in a navigation bar. Below the navigation bar, the 'Personal Data' section contains several dropdown menus and text boxes. The fields are: Race, Ethnic Group, Marital Status, Preferred Language, Religion, Organ Donor, DRC Code, Assigned Unit, and Attached Unit. The 'Assigned Unit' and 'Attached Unit' fields are highlighted with red boxes.

- The 2nd part of the patient information data fields consists of information associated with the military service-member

The screenshot shows the 'Military Service-Member' section of the patient information form. It contains several dropdown menus and text boxes. The fields are: Rank, Affiliation Category, US Government Agency, Pay Category, Military Status, Command Security, Flying Status, Secretarial Designee Status, Previous PATCAT, BENCAT, and PATCAT. The 'Rank', 'Affiliation Category', 'US Government Agency', 'Pay Category', 'Military Status', 'Command Security', and 'Flying Status' fields are highlighted with red boxes. The 'PATCAT' field is highlighted with a yellow background.

Comments:

Patient Registration – Emergency Contact

- Emergency Contacts Tab: Consists of emergency contact and next of kin contact data fields

A screenshot of a web application interface showing the "Emergency Contacts" tab. The interface has a navigation bar at the top with tabs: "Patient Contact Info", "Patient Information", "Insurance 1", "Insurance 2", "Insurance 3", "Insurance 4", "Insurance 5", "Insurance 6", "Insurance Summary", and "Emergency Contacts". The "Emergency Contacts" tab is active. Below the navigation bar, there are two rows of dropdown menus. The first row is for the Emergency Medical Contact (EMC), with labels "Patient's Relationship to EMC:" and "EMC's Relationship to Patient:". The second row is for the Next of Kin (NOK), with labels "Patient's Relationship to NOK:" and "NOK's Relationship to Patient:". Each label is followed by a dropdown menu with a downward arrow.

- Upon completion of all required data fields the patient is registered
