

**FDA DOCUMENTATION FOR THE GENERIC CLEARANCE  
OF COLLECTIONS FOR  
QUICK TURNAROUND TESTING OF COMMUNICATION  
EFFECTIVENESS  
OMB CONTROL NO. 0910-NEW**

---

The Food and Drug Administration (FDA) sometimes needs to communicate with U.S. consumers and other stakeholders about issues of immediate and important public health significance such as foodborne illness outbreaks, food recalls, or other situations requiring expedited FDA food, dietary supplement, cosmetics, or animal food or feed communications. To better protect the public health, the agency needs quick turn-around information collected from consumers and other stakeholders to help ensure its messaging has reached the target audience, has been understood and, if needed, to update its communications during these events. This quick-turnaround generic collection gathers quantitative and qualitative information (i.e., surveys, focus groups, and in-depth interviews) to test communications or educational messages when there is an urgent public health need, assists FDA to communicate effectively about topics of public health and safety, and conveys sometimes complex concepts.
