Welcome to the National Cancer Institute

The National Cancer Institute (NCI) is the federal government's principal agency for cancer research and training. As the leader of the cancer research enterprise in the United States, collectively known as the National Cancer Program, and the largest funder of cancer research in the world, the NCI manages and conducts a broad range of research, training, and information dissemination activities that span the entire country, meeting the needs of all demographics. The NCI supports researchers and research institutions in every state, the District of Columbia, and Puerto Rico and U.S. territories.

The NCI mission is to lead, conduct, and support cancer research across the nation to advance scientific knowledge and help all people live longer, healthier lives.

The NCI maintains a CV/resume databank of interested candidates to be considered for postdoctoral, doctoral, and postbaccalaureate (master-level and post-college) fellowships. [Candidates are encouraged to post their CVs/resumes.](#)
