

- a. Collection and/or storage of donor and recipient specimens
- b. Tracking and reporting of HIV, HBV, and HCV infection in donors or recipients

HHS recognizes that the elimination of a specific label, (e.g., “increased risk donor”) to designate a separate group of organ donors with specific characteristics associated with a relatively small increased risk of donor-derived transmission of HIV, HBV, or HCV is a change to one of the ACBTSA recommendations for Guideline revision. HHS also acknowledges the diversity of opinions expressed during the deliberations of this committee regarding whether or not to continue to use any label to designate this group of organ donors. HHS has evaluated the potential advantages and disadvantages of using such a label for a specific subset of all organ donors and proposes the approach outlined above for several reasons:

1. Designating a subset of organ donors does not necessarily prevent or reduce the risk of transmission of disease (HIV, HBV, or HCV).
2. Next-of-kin interviews used to identify risk factors may be unreliable.
3. For transplant candidates with end-stage organ disease, the risk of severe morbidity or mortality associated with HIV, HBV, or HCV transmission as a result of accepting an IRD organ is less than the risk of mortality while remaining on the wait list for another organ offer.
4. The risk of morbidity or mortality from HIV, HBV, or HCV transmission from an IRD organ is less than other risks of organ transplant-related complications, including organ rejection, and infections resulting from immune suppression.
5. Use of a label to specify an organ donor group with small risk of disease transmission (e.g., HIV, HBV, HCV) can detract from the recognition of other known clinical attributes in some donors that can place recipients at even greater risk for morbidity and mortality.

We seek informed feedback regarding this proposed approach to revising the recommendations in the 2013 Guideline, including the feasibility of the recommended timing of testing for living and deceased donors.

Director, Office of Infectious Disease and HIV/AIDS Policy.

Submission for OMB Review; 30-Day Comment Request Introduction to Cancer Research Careers (ICRC) Application (NCI)

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 30-days of the date of this publication.

ADDRESSES: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, *OIRA_submission@omb.eop.gov* or by fax to 202-395-6974, Attention: Desk Officer for NIH.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Agustina Boswell, Program Coordinator, Office of Workforce Planning and Development, National Cancer Institute, 9609 Medical Center Drive, Room 2E-134, Rockville, Maryland 20892 or call non-toll-free number (240) 276-5162 or Email your request, including your address to: *boswellam@mail.nih.gov*. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on May 10, 2019, (84 FR 20642) and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Cancer Institute (NCI), National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: The National Cancer Institute’s Introduction to Cancer Research Careers (ICRC) Application (NCI), 0925-XXXX, Exp., Date XX/XXXX, NEW, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: The National Cancer Institute’s (NCI) ICRC fellowship program supports NCI’s goal of training cancer researchers for the 21st century. Applying to the ICRC program through the ICRC website application is required in order for undergraduates, postbaccalaureate, graduate student candidates to be considered for entry into the program. The purpose of the ICRC Application is to assure that candidates for the ICRC program meet basic eligibility requirements; to assess their potential as future scientists; to determine where mutual research interests exist; and to make decisions regarding which applicants will be proposed and approved for fellowship awards. The information is for internal use to make decisions about prospective fellows and students that could benefit from the ICRC program.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden are 240 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Number of respondents	Number of responses per respondent	Average time per response (in hours)	Total annual burden hours
Individuals	120	1	1	120

ESTIMATED ANNUALIZED BURDEN HOURS—Continued

Type of respondent	Number of respondents	Number of responses per respondent	Average time per response (in hours)	Total annual burden hours
Individuals	240	1	30/60	120
Totals	360	240
