1. Controlling High Blood Pressure (CBP) Core Measure Screenshots

1.1 Are you reporting on this measure?

The screenshot shows a web interface for the 'Contraceptive Care - Postpartum Women Ages 21-44 (CCP)' measure. The header includes navigation tabs: News, Tasks (3), Records, Reports, and Actions (highlighted). A user profile icon for 'Applan' is in the top right. The main content area displays the measure title and ID (CMS-10434 OMB 0938-1188) and the Medicaid Adult Core Quality Measure - ZZ - 2017. On the right, there are buttons for 'REQUEST TECHNICAL ASSISTANCE', 'CLEAR', and 'VIEW ALL RESPONSES', along with a 'Request System Help' link and a 'View Implementation Guide' link. The question 'Are you reporting on this measure?*' has two radio button options: 'Yes' (selected) and 'No'.

Figure 1: Are you reporting on this measure?

1.2 Measurement Specification – Path 1

The screenshot shows the 'Measurement Specification' section for Path 1. It features a title 'Measurement Specification' and a collapse icon '+/-'. Below the title, there are two radio button options: 'U.S. Office of Population Affairs' (selected) and 'Other'.

Figure 2: Measurement Specification – Path 1

1.3 Measurement Specification – Path 2

The screenshot shows the 'Measurement Specification' section for Path 2. It features a title 'Measurement Specification' and a collapse icon '+/-'. Below the title, there are two radio button options: 'U.S. Office of Population Affairs' and 'Other' (selected). To the right of the radio buttons is an 'Explain *' label and a large text input area for providing details.

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.

PRA Disclosure Statement: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1188. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Breast Cancer Screening (BCS) Core Measure Screenshots

1.1 Are you reporting on this measure?

The screenshot shows a web interface for the Breast Cancer Screening (BCS) Core Measure. At the top, there is a navigation bar with 'News', 'Tasks (3)', 'Records', 'Reports', and 'Actions' (highlighted). A user profile icon for 'Applan' is in the top right. Below the navigation bar, the title 'Breast Cancer Screening (BCS)' is displayed with the CMS ID 'CMS-10434 OMB 0938-1188'. Underneath, it says 'Medicaid Adult Core Quality Measure - ZZ - 2017'. On the right side, there are three buttons: 'REQUEST TECHNICAL ASSISTANCE', 'CLEAR', and 'VIEW ALL RESPONSES'. A link for 'Request System Help' and 'View Implementation Guide' is also present. The main question is 'Are you reporting on this measure?*' with two radio button options: 'Yes' (selected) and 'No'.

Figure 1: Are you reporting on this measure?

1.2 Measurement Specification – Path 1

The screenshot shows the 'Measurement Specification' section for Path 1. It has a title 'Measurement Specification' and a collapse icon '+/-'. There are two radio button options: 'National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)' (selected) and 'Other'. To the right, there is a dropdown menu labeled 'Specify version of HEDIS used *' with '2017' selected. Below the dropdown, it says 'HEDIS: Healthcare Effectiveness Data and Information Set'.

Figure 2: Measurement Specification – Path 1

1.3 Measurement Specification – Path 2

The screenshot shows the 'Measurement Specification' section for Path 2. It has a title 'Measurement Specification' and a collapse icon '+/-'. There are two radio button options: 'National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)' and 'Other' (selected). To the right, there is a text area labeled 'Explain *' which is currently empty.

1.2 Measurement Specification – Path 1

The screenshot shows the 'Measurement Specification' section for Path 1. It has a title 'Measurement Specification' and a collapse icon '+/-'. There are two radio button options: 'National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)' (which is selected) and 'Other'. To the right, there is a dropdown menu labeled 'Specify version of HEDIS used *' with '2017' selected. Below the dropdown is the text 'HEDIS: Healthcare Effectiveness Data and Information Set'.

Figure 2: Measurement Specification – Path 1

1.3 Measurement Specification – Path 2

The screenshot shows the 'Measurement Specification' section for Path 2. It has a title 'Measurement Specification' and a collapse icon '+/-'. There are two radio button options: 'National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)' and 'Other' (which is selected). To the right, there is a text area labeled 'Explain *' which is currently empty.

1.5 Performance Measure – Path 1

Performance Measure +/-

The percentage of Medicaid enrollees age 18 and older who received at least 180 treatment days of ambulatory medication therapy for a select therapeutic agent during the measurement year and who received annual monitoring for the therapeutic agent in the measurement year. Report each of the three rates separately and a total rate.

- Annual monitoring for enrollees on angiotensin converting enzyme (ACE) inhibitors or angiotensin receptor blockers (ARB).
- Annual monitoring for enrollees on digoxin.
- Annual monitoring for enrollees on diuretics.
- Total rate (the sum of the four numerators divided by the sum of the four denominators).

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

+/-

A rolling average represents the percentage of Medicaid enrollees age 18 and older who were current smokers or tobacco users and who received medical assistance with smoking and tobacco use cessation during the measurement year. The three components of this measure assess different facets of providing medical assistance with smoking and tobacco use cessation and are reported as three separate rolling averages:

- Advising Smokers and Tobacco Users to Quit – A rolling average represents the percentage of Medicaid enrollees age 18 and older who were current smokers or tobacco users and who received advice to quit during the measurement year
- Discussing Cessation Medications – A rolling average represents the percentage of Medicaid enrollees age 18 and older who were current smokers or tobacco users and who discussed or were recommended cessation medications during the measurement year
- Discussing Cessation Strategies – A rolling average represents the percentage of Medicaid enrollees age 18 and older who were current smokers or tobacco users and who discussed or were provided cessation methods or strategies during the measurement year

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.
