<DATE>

Dear Mr./Mrs. _____ ,

We are writing to ask for your help. <<INSERT AAA NAME>> is taking part in a study for the Administration for Community Living (ACL)/Administration on Aging (AoA), part of the U.S. Department of Health and Human Services. ACL/AoA wants to test questions in the National Survey of Older Americans Act Participants to make sure that the questions are clear. The National Survey wants to know what people around the country think about the meal programs, transportation, family caregiver, and other services offered by their local AAA.

You have been chosen to be part of the effort to test the questions. An interviewer from Westat, a research firm working for AoA, will call you in the near future to ask you some questions about your experience with <<INSERT AAA NAME & PROVIDER NAME IF KNOWN>>. For some of the questions, the interviewer will ask you to repeat the question in your own words. The interviewer may also ask you to define selected terms in the survey. This will help ACL/AoA make sure that the questions are clear and convey the appropriate meaning.

Your answers will be kept private. Your name won't be given to anyone else. We will not make a permanent record of your answers to the survey questions. However, we will record your comments about the questions. We will combine your comments with the comments of other respondents. Based on the review of the comments, we will update the questions to make them easier to understand.

I hope you will be part of testing the questions. It's your choice. **Whatever you decide, it won't affect the services you get now or in the future.** If you do **not** want to take part in this study, please call <<INSERT AAA CONTACT NAME>> at <<INSERT AAA PHONE NUMBER>> by <<INSERT DATE>>.

If you have any questions about this study, please call Westat toll-free at 1-888-204-0046 or the Administration on Aging toll-free at 1-888-204-0271. If you have any questions about the services you get, please call our office at <<INSERT AAA PHONE NUMBER>>.

Thank you for your help and support.

Sincerely,

Executive Director

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is XXXX-XXXX. Public reporting burden for this information collection is estimated to average 35 minutes per response; response times may range from 20 minutes to 40 minutes. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Administration for Community Living/Administration on Aging, Washington, DC 20201 Attn: Dr. Heather Menne, 888-204-0271.

Instructions for AAA Access to the Survey Website & How to Submit Data

AoA National Longitudinal Survey of Older Americans Act Participants

Instructions for AAA/SUA Access to the Website

To safeguard private, personally identifiable client contact information and to improve communication, we have created a secure website for the AoA National Survey of Older Americans Act Participants. State units on aging and area agencies on aging will be able to submit electronic files containing private client data to Westat via the AoA National Survey web site. Included in the notification packet sent to each SUA and AAA is a separate card with the unique SUA-ID# or AAA-ID # and secure password assigned to your agency that will enable your staff to electronically upload data to the web site.

The web site uses the industry-standard TLS (Transport Layer Security) 1.1/2 encryption for secure data submissions. When files containing client data are uploaded to the website, they are automatically stored in a secure database. The database containing the client data is not accessible via the Internet; it resides on a server inside the Westat firewall. Only Westat Data Collection Program staff members have access to the master survey database.

This document describes how to access the AoA National Survey Web Site: www.aosurvey.org. You will use this web site to upload your client lists and client contact information and to retrieve sampling results (the list of clients selected to participate in the survey), as well as to download additional instructions and forms.

Step 1: Go to www.aoasurvey.org. You will automatically be redirected to <https://aoasurvey.org/default.asp>.

The Welcome page is available to the general public and can be accessed by any of your clients and their families who wish to know more information about the AoA National Survey.

Administration for Community Living

Administration on Aging

Welcome to the National Survey of Older Americans Act Participants

The Administration for Community Living (ACL) oversees Administration on Aging (AoA) programs and conducts the **National Survey of Older Americans Act (OAA) Participants**. This is a national sample survey of programs on aging funded by Title III of the Older Americans Act. The purpose of this survey is to provide ACL/AoA with an effective method for collecting data on Title III programs. The results of this study help ACL/AoA meet its accountability requirements to the President. The results also demonstrate to Congress how well programs are achieving their legislative goals.

312 Area Agencies on Aging (AAAs) have been randomly selected to participate in this study. A small sample of clients from each participating AAA will be randomly selected to complete a telephone survey about services they received during the past year. The services being evaluated include: Case Management, Congregate Meals, Family Caregiver Support, Home-Delivered Meals, Homemaker, and Transportation.

Westat is the research firm that is conducting this study for AoA. Westat will conduct confidential telephone interviews with clients selected for the study. All responses will be confidential and anonymous. The results will not identify any individuals, agencies, or providers.

If you represent a State Unit or AAA selected to participate in the the National Survey of OAA Participants, please click on the **Login to Upload Data** button on the left side of the screen to access detailed instructions and forms or to upload data.

For help, contact AoA National Survey Help Center: 888-204-0046 (toll-free); AoASurvey@westat.com

Step 2: Login to upload data or download instructions and forms.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Community Living

Agency Information Collection Activities; Public Comment Request; Redesign of Existing Data Collection; National Survey of Older Americans Act Participants

AGENCY: Administration for Community
Living, HHS.

ACTION: Notice.

SUMMARY: The Administration for
Community Living (ACL) is announcing
an opportunity for the public to
comment on the proposed collection of
certain information by the agency.
Under the Paperwork Reduction Act of
1995 (the PRA), Federal agencies are
required to publish a notice in the
Federal Register concerning each
proposed collection of information,
including each proposed extension of an
existing collection of information, and
to allow 60 days for public comment in
response to the notice. This notice
solicits comments on a proposed
revision to an existing data collection
related to the National Survey of Older
Americans Act Participants
(NSOAAAP)(ICR Rev).

DATES: Submit written or electronic
comments on the collection of
information by November 27, 2017.

ADDRESSES: Submit electronic
comments on the collection of
information to: [heather.menne@
acl.hhs.gov](mailto:heather.menne@acl.hhs.gov).

Submit written comments on the
collection of information to: U.S.
Department of Health and Human
Services, Administration for
Community Living, Washington, DC
20201, Attention: Heather Menne.

FOR FURTHER INFORMATION CONTACT:
Heather Menne by telephone: (202) 795-
7733 or by email: [heather.menne@
acl.hhs.gov](mailto:heather.menne@acl.hhs.gov).

SUPPLEMENTARY INFORMATION: Under the
PRA (44 U.S.C. 3501-3520), Federal
agencies must obtain approval from the
Office of Management and Budget
(OMB) for each collection of
information they conduct or sponsor.
"Collection of information" is defined
in 44 U.S.C. 3502(3) and 5 CFR

1320.3(c) and includes agency requests
or requirements that members of the
public submit reports, keep records, or
provide information to a third party.
Section 3506(c)(2)(A) of the PRA (44
U.S.C. 3506(c)(2)(A)) requires Federal
agencies to provide a 60-day notice in
the **Federal Register** concerning each
proposed collection of information,
including each proposed extension or
update of an existing collection of
information, before submitting the
collection to OMB for approval.

To comply with the above
requirement, ACL is publishing a notice
of the proposed revision of a currently
approved collection of information set
forth in this document. With respect to
the following collection of information,
ACL invites comments on: (1) Whether
the proposed collection of information
is necessary for the proper performance
of ACL's functions, including whether
the information will have practical
utility; (2) the accuracy of ACL's
estimate of the burden of the proposed
collection of information, including the
validity of the methodology and
assumptions used; (3) ways to enhance
the quality, utility, and clarity of the
information to be collected; and (4)
ways to minimize the burden of the
collection of information on
respondents, including through the use
of automated collection techniques
when appropriate, and other forms of
information technology.

Purpose

The purpose of this data collection is
to fulfill requirements of the Older
Americans Act and the Government
Performance and Results Modernization
Act of 2010 (GPRAMA) and related
program performance activities. Section
202(a)(16) of the OAA requires the
collection of statistical data regarding
the programs and activities carried out
with funds provided under the OAA
and Section 207(a) directs the Assistant
Secretary for Aging to prepare and
submit a report to the President and
Congress based on those data. Section
202(f) directs the Assistant Secretary to
develop a set of performance measures
for planning, managing, and evaluating
activities performed and services
provided under the OAA. Requirements
pertaining to the measurement and
evaluation of the impact of all programs
authorized by the OAA are described in
section 206(a). The National Survey of
Older Americans Act Participants
(NSOAAAP) is one source of data used to
develop and report performance
outcome measures and measure
program effectiveness in achieving the
stated goals of the OAA.

The National Survey of Older
Americans Act Participants (NSOAAAP)
information collection will include
consumer assessment surveys for the
Congregate and Home-delivered meal
nutrition programs; Case Management,
Homemaker, and Transportation
Services; and the National Family
Caregiver Support Program. This survey
builds on earlier national pilot studies
and surveys, as well as performance
measurement tools developed by ACL
grantees in the Performance Outcomes
Measures Project (POMP). This
information will be used by ACL to
track performance outcome measures;
support budget requests; comply with
the GPRAMA Modernization Act of 2010
(GPRAMA) reporting requirements;
provide national benchmark
information; and inform program
development and management
initiatives.

Revisions

With the exception of changes to
selected questions (e.g., addition of
questions about oral health in 2014), the
NSOAAAP has been collected in its
current form since 2008. This proposed
collection is a revision that will replace
the currently approved version (OMB
Control Number: 0985-0023) by
transitioning from a cross-sectional
survey to a longitudinal survey. The
current National Survey of Older
Americans Act Participants (NSOAAAP),
an exclusively cross-sectional survey,
can transition to a longitudinal
information collection component by
establishing a baseline cohort and
conducting follow-up interviews with
that cohort at specified time intervals. A
baseline cohort can be selected in the
same manner as in prior cycles of the
cross-sectional NSOAAAP. Area Agencies
on Aging (AAAs) would be selected
with a probability proportional to their
size, with some large AAAs sampled
with certainty. Random samples of
clients within each selected AAA will
be sampled from the agencies' client
lists. However, in a change from current
procedures, the target sample size
would be increased from current
standards (n=6000) to account for
attrition of individuals over time. For
the duration of the longitudinal cohort
analysis, the same sample of AAAs and
clients should be maintained to preserve
the longitudinal nature of the study.
Three strategies are key for transforming
the current survey into a longitudinal
study, while preserving the ability to
produce nationally representative cross-
sectional estimates of client
characteristics at each wave. The three
strategies include: (1) A higher initial
sample size (n=6600), (2) an intensive

operational campaign to keep track of respondents over time, and (3) limiting the number of waves for each cohort study (e.g., three waves are proposed).

The factors that influenced the proposed revision of the NSOAAP, include:

(1) The need to minimize reporting burden on the AAAs by only having AAAs provide client lists for the initial data collection (as there would be no need to re-contact the AAAs until such time as a new longitudinal cohort would be established);

(2) the opportunity to incorporate selected new questions and topics of interest based on public comment and the input from an expert workgroup comprised of gerontologists, survey methodologists, and OAA program experts;

(3) the ability to provide more precise estimates of changes over time in measured quantities than repeated cross-sectional studies with the same sample size;

(4) the ability to track certain types of attrition as outcomes (e.g., client transitions from independent living to group quarters; a client dies, a client no longer uses a service because of moving in with a family member);

(5) the ability to examine changes in the natural history of physical functioning and health and how these outcomes relate to patterns of service utilization over the three annual data

collections (e.g., to what extent do clients increase or decrease the use of services over time and what indicators are associated with the change in services?); and

(6) the opportunity to add a rotating topical module in waves 2 and 3 to collect information on emerging issues (e.g., nutrition; health care access; or client experiences with discrimination based on age, sexual orientation, race, or other characteristics) and provide a broader picture of the types of individuals receiving OAA services.

Burden Estimate

The proposed NSOAAP revision reduces the estimated average hour burden per respondent by 11% compared to the current NSOAAP due to the proposed change of a longitudinal data collection in which Area Agencies on Aging need only provide client lists in the first of three years of data collection (compared to annually in the current cross-sectional data collection). Limited expansions in data elements are found in the Family Caregiver Survey. The proposal includes the addition of new questions about caregiving and the well-being of the caregiver. Across the OAA services, greater detail regarding falls, life changes, and social integration are proposed; for clients of Case Management Services, Congregate Nutrition, Home-delivered Nutrition,

Homemaker Services, and Transportation Services, greater detail about food security is proposed. The ACL also seeks the opportunity to: (1) Introduce unique topical modules in waves 2 and 3 to collect information on emerging issues such as nutrition, health care access, or client experiences with discrimination based on age, sexual orientation, race, or other characteristics, and (2) conduct brief informant follow-up interviews in waves 2 and 3 when baseline respondents are unreachable.

Taken as a whole, the proposed reductions exceed the proposed increases in data burden. The proposed information collection instruments may be found on the ACL Web site under Proposed Revisions for National Survey of Older Americans Act Participants (NSOAAP), available at: <https://www.acl.gov/about-acl/public-input>.

The estimated average hour burden per respondent for the Redesigned NSOAAP will change from the 0.80 hour estimate in 2017 to 0.71 hours, a decrease due to the proposed change of a longitudinal data collection in which Area Agencies on Aging need only provide client lists in the first of three years of data collection (compared to annually in the current cross-sectional data collection). ACL estimates the burden of this revised collection of information as follows:

TABLE—ESTIMATED ANNUALIZED BURDEN HOURS

Respondent/data collection activity	Number of respondents	Responses per respondent	Average hours per response	Annual burden hours
Baseline				
Area Agency on Aging: Respondent selection process	250	1	4.0	1,000
Service Recipients (i.e., Case Management; Congregate Nutrition; Home-delivered Nutrition; Homemaker; Transportation)	4,400	16667	2,933

Food and Drug Administration

[Docket No. FDA-2011-D-0429]

Classification of Products as Drugs and Devices and Additional Product Classification Issues; Guidance for Industry and Food and Drug Administration Staff; Availability

AGENCY: Food and Drug Administration,
HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a final guidance for industry and FDA staff entitled "Classification of Products as Drugs and Devices & Additional Product Classification Issues." This guidance provides the Agency's current thinking on approaches for classifying products as drugs and devices, and on certain additional product classification issues.

DATES: The announcement of the guidance is published in the **Federal Register** on September 26, 2017.

ADDRESSES: You may submit either electronic or written comments on Agency guidances at any time as follows:

Electronic Submissions

Submit electronic comments in the following way:

- Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you

do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see "Written/Paper Submissions" and "Instructions").

Written/Paper Submissions

Submit written/paper submissions as follows:

- Mail/Hand delivery/Courier (for written/paper submissions): Dockets Management Staff (HFA-305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in "Instructions."

Instructions: All submissions received must include the Docket No. FDA-2011-D-0429 for "Classification of Products as Drugs and Devices & Additional Product Classification Issues." Received comments will be placed in the docket and, except for those submitted as "Confidential Submissions," publicly viewable at <https://www.regulations.gov> or at the Dockets Management Staff office between 9 a.m. and 4 p.m., Monday through Friday.

- Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states "THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION." The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as "confidential." Any information marked as "confidential" will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: <https://www.gpo.gov/>

Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to <https://www.regulations.gov> and insert the docket number, found in brackets in the heading of this document, into the "Search" box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

You may submit comments on any guidance at any time (see 21 CFR 10.115(g)(5)).

Submit written requests for single copies of the guidance document entitled "Classification of Products as Drugs and Devices & Additional Product Classification Issues" to the Office of Combination Products, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 32, Rm. 5129, Silver Spring, MD 20993-0002. Send one self-addressed adhesive label to assist that office in processing your request. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the guidance document.

FOR FURTHER INFORMATION CONTACT: John Barlow Weiner, Associate Director for Policy, Office of Combination Products, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 32, Rm. 5129, Silver Spring, MD 20993-0002, 301-796-8930.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance for industry and FDA staff entitled "Classification of Products as Drugs and Devices & Additional Product Classification Issues." This guidance finalizes two related draft guidance documents issued in June 2011, entitled "Classification of Products as Drugs and Devices & Additional Product Classification Issues" and "Interpretation of the Term 'Chemical Action' in the Definition of Device under Section 201(h) of the Federal Food, Drug, and Cosmetic Act."

This guidance is intended to provide the Agency's current thinking on approaches for classifying products as drugs and devices, and on certain additional product classification issues. FDA determines whether to classify a product as a drug or device based on the statutory definitions for these terms set forth in section 201(g) and (h) of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 321(g) and (h)), respectively, as applied to the scientific data concerning the products

**Westat Assurance of Confidentiality
Agreement**

Westat, Inc.
Employee or Contractor's Assurance of Confidentiality of Survey Data

Statement of Policy

Westat is firmly committed to the principle that the confidentiality of individual data obtained through Westat surveys must be protected. This principle holds whether or not any specific guarantee of confidentiality was given at time of interview (or self-response), or whether or not there are specific contractual obligations to the client. When guarantees have been given or contractual obligations regarding confidentiality have been entered into, they may impose additional requirements that are to be adhered to strictly.

Procedures for Maintaining Confidentiality

1. All Westat employees and field workers shall sign this assurance of confidentiality. This assurance may be superseded by another assurance for a particular project.
2. Field workers shall keep completely confidential the names of respondents, all information or opinions collected in the course of interviews, and any information about respondents learned incidentally during field work. Field workers shall exercise reasonable caution to prevent access by others to survey data in their possession.
3. Unless specifically instructed otherwise for a particular project, an employee or field worker, upon encountering a respondent or information pertaining to a respondent that s/he knows personally, shall immediately terminate the activity and contact her/his supervisor for instructions.
4. Survey data containing personal identifiers in Westat offices shall be kept in a locked container or a locked room when not being used each working day in routine survey activities. Reasonable caution shall be exercised in limiting access to survey data to only those persons who are working on the specific project and who have been instructed in the applicable confidentiality requirements for that project.

Where survey data have been determined to be particularly sensitive by the Corporate Officer in charge of the project or the President of Westat,

such survey data shall be kept in locked containers or in a locked room except when actually being used and attended by a staff member who has signed this pledge.

5. Ordinarily, serial numbers shall be assigned to respondents prior to creating a machine-processable record and identifiers such as name, address, and Social Security number shall not, ordinarily, be a part of the machine record. When identifiers are part of the machine data record, Westat's Manager of Data Processing shall be responsible for determining adequate confidentiality measures in consultation with the project director. When a separate file is set up containing identifiers or linkage information which could be used to identify data records, this separate file shall be kept locked up when not actually being used each day in routine survey activities.

6. When records with identifiers are to be transmitted to another party, such as for keypunching or key taping, the other party shall be informed of these procedures and shall sign an Assurance of Confidentiality form.
7. Each project director shall be responsible for ensuring that all personnel and contractors involved in handling survey data on a project are instructed in these procedures throughout the period of survey performance. When there are specific contractual obligations to the client regarding confidentiality, the project director shall develop additional procedures to comply with these obligations and shall instruct field staff, clerical staff, consultants, and any other persons who work on the project in these additional procedures. At the end of the period of survey performance, the project director shall arrange for proper storage or disposition of survey data including any particular contractual requirements for storage or disposition. When required to turn over survey data to our clients, we must provide proper safeguards to ensure confidentiality up to the time of delivery.
8. Project directors shall ensure that survey practices adhere to the provisions of the U.S. Privacy Act of 1974 with regard to surveys of individuals for the Federal Government. Project directors must ensure that procedures are established in each survey to inform each respondent of the authority for the survey, the purpose and use of the survey, the voluntary nature of the survey (where applicable) and the effects on the respondents, if any, of not responding.

PLEDGE

I hereby certify that I have carefully read and will cooperate fully with the above procedures. I will keep completely confidential all information arising from surveys concerning individual respondents to which I gain access. I will not discuss, disclose, disseminate, or provide access to survey data and identifiers except as authorized by Westat. In addition, I will comply with any additional procedures established by Westat for a particular contract. I will devote my best efforts to ensure that there is compliance with the required procedures by personnel whom I supervise. I understand that violation of this pledge is sufficient grounds for disciplinary action, including dismissal. I also understand that violation of the privacy rights of individuals through such unauthorized discussion, disclosure, dissemination, or access may make me subject to criminal or civil penalties. I give my personal pledge that I shall abide by this assurance of confidentiality.

Dear «Title» «AAA_Director_Last_Name»:

The Administration for Community Living (ACL) is undertaking a three-year longitudinal study of Older Americans Act Participants. Your agency has been randomly selected to participate along with approximately half of the other AAAs in the 50 states and the District of Columbia.

Your cooperation is essential to the success of this survey. The NLSOAP provides ACL with an effective method for collecting timely data to meet the accountability requirements of Congress and the executive branch of the federal government. The results of this survey can also be used for your own advocacy and business purposes.

ACL would like to contact a sample of older adults served by your organization for the national survey. The NLSOAP will determine consumer assessment of the services they receive, as well as outcomes of those services for participants. The survey results will demonstrate to the President, Congress, and other decision makers the outstanding outcomes that the aging network produces. Powerful information from surveys is used for performance outcome measures, to support ACL budget requests, and to enhance our continued pursuit of support for long term care services and supports (LTSS). Performance measurement is critical to improving LTSS for all consumers.

As required, ACL requested and received approval from the Office of Management and Budget (OMB) to identify and to survey elderly individuals and family caregivers who receive OAA services (OMB approval number is XXXXX-XXXX. The approval covers the sampling of area agencies on aging and their clients, and conducting surveys to assess the following service categories: congregate and home-delivered meals, caregiver, case management, homemaker, and transportation services.

We are asking for your assistance in selecting service recipients to be interviewed for the survey. The enclosed instructions describe the steps to help us select these participants. All participant responses will be kept private and the analysis will not be linked with either individuals or your agency. We anticipate the development of client lists to be used to select the survey participants will take you less than two hours to complete. You will be working with Robin Ritter and her staff from Westat to complete this procedure. If you have any questions, you may contact the Westat National Survey specialists at 1-888-204-0046 or by email at aoasurvey@westat.com.

To communicate the importance of the survey and to explain the logistics involved, ACL and Westat are holding a kick-off webinar event for SUAs and AAAs on **XXXX at 1:30 pm EDT**. Please see the enclosed webinar invitation for further information. The webinar will be recorded and will be available to replay, if you are not available at that time.

Unlike the previous years, the NLSOAP is now a three-year longitudinal study. We will interview the sampled clients at baseline, year 2 and year 3. This means that your agency will not be asked to sample clients again during the second and third years of the study period.

If you have any questions about your participation in the survey, please call ACL at 1-888-204-0271. On behalf of the Administration for Community Living, U.S. Department of Health and Human Services, I would like to thank you for your assistance in this project. Your help is invaluable for the completion of this study.

Sincerely,

MEMORANDUM

DATE: <DATE>
TO: Executive Director, Area Agency on Aging
FROM: Robin Ritter, Manager of Survey Operations
SUBJECT: National Longitudinal Survey of Older Americans Act
: Participants

Westat is conducting a three-year longitudinal survey of Older Americans Act Participants for the Administration for Community Living, U. S. Department of Health and Human Services. Your Agency was selected as part of a representative sample of all Area Agencies on Aging in the United States, and your participation is essential for the success of this study.

You will be assisting ACL by providing information that will allow Westat, ACL's contractor, to survey individual clients and caregivers who receive OAA services. We will work with your staff to randomly select clients and caregivers to take part in a telephone interview to assess OAA programs. The data collected from the survey will be used to document the outcomes of services provided by the Aging Network.

Services that are being evaluated include:

- Case Management
- Congregate Meals
- Home Delivered Meals
- Homemaker Services
- Transportation Services
- National Family Caregiver Support Program

Enclosed you will find instructions on how clients will be randomly selected for the survey and your agency's role in that process. If you have any questions or concerns, please do not hesitate to contact us:

- ♦ By telephone: 1-888-204-0046 (toll free)
- ♦ By email: AoAsurvey@westat.com.

We are looking forward to working with you and your staff, and we are committed to making this study as efficient and effective as possible. Thank you for your participation.

Summary of AAA Responsibilities for the Baseline ACL/AoA National Longitudinal Survey

Summary of Responsibilities of the AAA Executive Director:

1. Please designate a person within your agency to be a survey liaison or point-of-contact with whom we will work to gather and complete the necessary client lists and client contact information.
2. Please provide us with the contact person's name, email address, and phone number in an email message to our secure mailbox: aoasurvey@westat.com or call us at 1-888-204-0046.

Summary of Responsibilities of the AAA's Survey Liaison:

Step 1: Generate separate lists of active OAA clients by service.

Six services are being studied this year and are outlined further on in this memo.

Step 2: Upload the service lists to the AoA Survey secure website. Westat staff will use a special computer program to randomly select clients from your service lists who will be interviewed for the study, and we will inform you of the specific clients selected.

Step 3: Provide Westat staff with contact information for those clients selected to be interviewed. Forms (Excel) for recording the contact information for the clients selected to be interviewed can be downloaded from the AoA National Survey website <https://aoasurvey.org/default.asp> or you may use your own spreadsheets, provided that the required contact information is included for each client.

Step 4: Notify the clients selected to be interviewed about the study. A sample letter is provided in this packet; you can also download a copy of this sample letter from the AoA National Survey website <https://aoasurvey.org/default.asp>. To save time and the cost of postage,

Westat can create and mail the letter for you on your AAA's letterhead, if desired.

Step 5: Notify Westat of any clients who do not wish to participate or whose contact information has changed. More detailed instructions are included on the pages following this section. Your Westat Survey Specialist will work with you to accommodate scheduling concerns, data format issues, or any other problems you might foresee or encounter.

Instructions for Creating Client Lists

Generate separate lists of active Older Americans Act Title III clients by type of service received using your client tracking software using **either** the one-step or two-step method.

- **One-step method:** Generate separate lists (separate Excel worksheet tabs or files) of clients by service and **include all client contact information** needed for clients selected to be interviewed (see chart on next page).
 - a. Upload separate service lists to AoA Survey website <https://aoasurvey.org/source/login.asp>.
 - b. Westat survey specialists will use a specialized computer program to randomly select a small number of clients per service to be interviewed.
 - c. Westat will notify AAA of the clients that were selected by uploading list of selected clients to the AAA's secure portion of the AoA Survey website.
 - d. Westat will destroy client contact information for any clients who were **not** selected to be interviewed.
 - e. Client contact information for clients selected to be interviewed will be used to send the informed consent letters and to contact the clients for their interviews; all client contact information will be destroyed by 12/31/14.

- **Two-step method:**

Step 1: Generate separate lists of clients by service using client IDs only.

- a. Upload separate service lists to AoA Survey website <https://aoasurvey.org/source/login.asp>.
- b. Westat survey specialists will use a specialized computer program to randomly select a small number of clients per service to be interviewed and will notify AAA of the client IDs that were selected.

Step 2: Provide detailed client contact information for the client IDs that were randomly selected (see chart on next page).

- a. Upload client contact information on the Sampled Clients Contact Information form (Excel) or alternate Excel format.
- b. Client contact information for clients selected to be interviewed will be used to send the informed consent letters and to contact the clients for their interviews; all client contact information will be destroyed by 12/31/14.

Things to consider regardless of which method you use to create your client lists for sampling:

- Each list should consist of clients who have received the OAA services during the most **recent 12 month period**.
- Before you select your lists of clients, if possible, select clients who are **CURRENTLY ACTIVE**; please **do not include any clients who are known to be deceased or have moved** out of the area.
- Each client who received the service will need to be listed on a separate line. Clients can be represented by a client ID (not a Social Security Number).

For the five (5) non-caregiver services, the following information is needed for each client selected to be interviewed:

Case Management	Congregate Meals	Home-Delivered Meals	Homemaker	Transportation
OAA Title III-B	Title III-C1	Title III-C2	Title III-B	Title III-B
Clients age 60+	Clients age 60+	Clients age 60+	Clients age 60+	Clients age 60+

For Family Caregiver services, the following information is needed for each client selected to be interviewed:

National Family Caregiver Support Program	
Title III-E clients who receive any of the following: Counseling and Support, Respite Services, and Supplemental Services (I&A and Grandparents Caring for Grandchildren are excluded)	
Caregiver Name (persons providing care for persons age 60 years and older)	
Caregiver Phone	
Caregiver Date of Birth	
Caregiver Gender

Detailed Instructions for the Baseline ACL/AoA National Longitudinal Survey of OAA Participants

- 1. Generate separate numbered lists of OAA clients by type of service received using your client tracking software.** Instructions for creating numbered client lists for Virginia’s version of AIM or PeerPlace are included in this packet. Please refer to the “Instructions for Creating Client Lists” on pages 3-4 to determine if you wish to use the “one-step” or “two-step method.” Each list should consist of clients who have received the following services during the most recent **12 month period**. Note: before you select your lists of clients, please **do not include any clients who are known to be deceased or have moved out of the area**. Each client who received the service will need to be listed on a separate row. You will need to have six separately numbered lists for each of the following:
 - a. Case Management**
 - b. Congregate Meals**
 - c. Home-delivered Meals**
 - d. Homemaker Services**
 - e. Transportation Services** (Please do not include clients who receive **assisted** transportation services.)
 - f. Caregivers caring for care recipients age 60 or older** who received any of the following services through the **National Family Caregiver Support Program** (except those who received information and assistance services only):
 - i. Individual counseling, participation in support groups, and/or caregiver training to assist the caregivers in making decisions and solving problems relating to their caregiving roles
 - ii. Respite care to enable caregivers to be temporarily relieved from their caregiving responsibilities
 - iii. Supplemental services, on a limited basis, to complement the care provided by caregivers.

Please do not include caregivers who have received information and assistance services only, and please do not include grandparents caring for grandchildren or anyone caring for individuals who are less than 60 years old.

2. Upload the service lists to the AoA Survey secure website.

- a. Upload your file(s) containing your numbered client lists by service to the AoA National Survey secure website <https://aoasurvey.org/default.asp>. You will be required to log-in with your unique AAA-ID or SUA-ID and password, and provide the name of the person uploading the file.
- b. Your Westat Survey Specialist will enter your client service list totals into a special computer program which will randomly select clients by row numbers from each of your numbered lists. The randomly selected row numbers indicate the client IDs or client names selected for the survey.
- c. If you use the two-step method and submit service lists with client IDs only, your Westat Survey Specialist will provide you with the sampling results showing the specific client IDs representing the clients selected to be interviewed for the survey. You will then need to provide Westat with the client names and contact information that corresponds to the selected client IDs.
- d. If you use the one-step method and submit service lists with all client names and contact information included in advance, your Westat Survey Specialist will upload the sampling results to your AAA secure portion of the AoA survey website. The sampling results will list the specific clients selected to be interviewed for the survey; all non-selected clients will have been deleted. You can disregard Step 3 below and move to Step 4 (notify selected clients).

- 3. If you used the two-step method and submitted only client IDs, you will need to provide Westat with client names and contact information for only those clients IDs selected on the random sampling report.** You can use the **Sampled Clients Contact Information Form** (an Excel file) to record client contact information; the form can be downloaded from the AoA National Survey secure website <https://aoasurvey.org/default.asp>. If you prefer, you can use an alternate Excel format of your choice as long as it contains the required contact information for each client.

- a. For **Care Management, Congregate Meals, Home Delivered Meals, Homemaker Service, and Transportation**, the following information is needed for each client selected to be interviewed:
 - i. Client name (Last Name; First Name)
 - ii. Client telephone number
 - iii. Client date of birth
 - iv. Client gender
 - v. Client address
 - vi. Service Provider
 - vii. Any accommodations, if known, that the client would need to complete the telephone survey. A proxy (usually a relative or a caregiver) may be designated to answer the survey questions on the client's behalf due to speech, language, hearing, cognitive or other difficulties. Similarly, an interpreter may be designated to answer the survey questions for non-English speaking clients.

- b. For **Caregivers**, the following information is needed for each Caregiver selected to be interviewed
 - i. Caregiver name
 - ii. Client telephone number
 - iii. Caregiver date of birth
 - iv. Caregiver gender
 - v. Caregiver address
 - vi. Any accommodations, if known, that the caregiver would need to complete the survey (e.g., a proxy or an interpreter may be designated to answer the survey questions on the caregiver's behalf due to speech, language, hearing, or other difficulties or for non-English speaking caregivers).
 - vii. For caregivers, we are also asking for the name, date of birth, and gender of the person they are caring for (if the information is available).

- c. Provide Westat with the contact information for the clients and caregivers by one of the following methods ranked in order of most secure:
- i. Upload the completed **Sampled Clients Contact Information Form** or other file containing client contact information to the AoA National Survey secure website <https://aoasurvey.org/default.asp>.
 - ii. If you experience difficulty using the secure website, you can send the information via email to the secure email account: aoasurvey@westat.com. If selecting this method, please password-protect your file and send the password to Westat in a separate email message.
 - iii. Send the information to Westat by Federal Express (Westat will provide you with prepaid Federal Express shipping labels when requested):
Westat
ATTN: Robin Ritter
1600 Research Blvd
RW 3658
Rockville, MD 20850
 - iv. Fax the information to: 888-475-9739 (toll-free).

We would like to have this process completed by **June 30, 2017**, if possible.

4. **Notify the clients selected to be interviewed about the study and the importance of their participation.** A sample informed consent letter is provided in this packet; you can also download the **Sample Letter to Notify Clients Selected to be Interviewed** as a Word file from the AoA National Survey website <https://aoasurvey.org/default.asp>. A separate Spanish language version of the letter can also be downloaded from the website. Please send each client who was selected a letter requesting his/her participation in the study using your agency's letterhead. This will let your clients know that this is a legitimate telephone survey and how important the study is. Please check with your Westat Survey Specialist for guidance on when to mail the letter. Alternatively, **Westat can mail the client letters for your agency** if you provide us with your agency letterhead. You can upload Word or jpg files containing your letterhead and executive director's signature to the AoA National Survey secure website.

5. **Notify Westat of any clients who do not wish to participate, are unable to participate, or whose contact information has changed.** After receiving the letter, if a client notifies you that they do not want to participate or you find that they are no longer able to participate (moved, nursing home placement, death), please upload the updated client information to the AoA National Survey website or notify your Westat Survey Specialist, and we will remove the client's name and contact information from our lists of clients to be called for the survey. Otherwise, telephone interviews are scheduled to start the week of July 15, 2017 and will continue into October.

Older Americans Act Title III Service Definitions

- A meal delivered to the home of an eligible client or other eligible participant

National Family Caregiver Support Program (Title III E)

- For this study, a Family Caregiver participant in the National Family Caregiver Support Program is defined as an individual who is providing care for another adult family member 60 years of age or over in the home. The person for whom the Family Caregiver provides care for is the "Care Recipient." Although the Care Recipient may receive other OAA services provided by the AAA, it is the

Caregiver who provides care that is the focus of the Caregiver section of this study.

- **Registered Services:**
 - **Counseling:** Provide individual counseling, organization of support groups, and caregiver training to family caregivers on an individual or group basis.
 - **Respite Care:** Provide temporary, substitute care arrangements to provide a brief period of rest or relief for family caregivers.
 - **Supplemental Services:** Services to complement the care provided by family caregivers such as emergency medical transportation not covered by insurance and other activities; home modifications not covered under Title IIIB, Medicare or other insurance

Please note the following exceptions for National Family Caregiver Support Program (Title III E):

- ★ Grandparents or other older individuals providing care for individuals less than 60 years of age are **not** eligible for this study and should not be included on client lists.
- ★ Information & Assistance for caregivers about available services is **not** included in this study. For this study, we are limiting the Caregiver survey to persons who are receiving registered Family Caregiver services (Counseling, Respite Care, and Supplemental Services). Although many individuals may also be receiving Information and Assistance (I&A), if I&A is the only service that they have received, they should not be included in the client lists for the survey.

Dear Mr./Mrs. _____,

We are writing to ask for your help. <<INSERT AAA NAME>> is taking part in a study for the Administration for Community Living (ACL)/Administration on Aging (AoA), part of the U.S. Department of Health and Human Services. ACL/AoA wants to know what people around the country think about the meal programs, transportation, family caregiver, and other services offered by their local AAA.

You have been chosen to be part of this national three-year study. An interviewer from Westat, a research firm working for AoA, will call you in the near future to ask you some questions about your experience with <<INSERT AAA NAME & PROVIDER NAME IF KNOWN>>. Your answers will be kept private. Your name won't be given to anyone else. The interviewer will also call you a year from now to conduct an interview, and two years from now to interview you again.

Your answers will be combined with answers from other clients and will be part of a report to Congress about how well these services are meeting the needs of older Americans. AoA and Congress will use this information to help them decide how well the programs are working and what improvements to make. Your answers will be very important in helping AoA and Congress decide what to do.

I hope you will be part of this important study. It's your choice. **Whatever you decide, it won't affect the services you get now or in the future.** If you do **not** want to take part in this study, please call <<INSERT AAA CONTACT NAME>> at <<INSERT AAA PHONE NUMBER>> by <<INSERT DATE>>.

If you have any questions about this study, please call Westat toll-free at 1-888-204-0046 or the Administration on Aging toll-free at 1-888-204-0271. If you have any questions about the services you get, please call our office at <<INSERT AAA PHONE NUMBER>>.

Thank you for your help and support.

Sincerely,

_____,
Executive Director

Dear Survey Participants:

Thank you for participating in this important survey about the services you receive from [Agency XYZ]. As we mentioned when you participated a year ago, Westat will interview you again in the coming months about the services you have received since then. The information you provide helps ACL/AoA find out about how you feel about the services. This information helps ACL/AoA ensure the quality of the services and provides information for justifying budget requests to Congress.

We sincerely hope you will participate in this second interview. Your participation is vital to helping ACL/AoA understand how your thoughts about services have changed over the past year.

The charts on the back of this page show information that you have helped us collect.

Sincerely yours,

Susan Jenkins, PhD
Director, Office of Performance and Evaluation
