

Notice: We want your feedback on proposed new wholesale electricity markets data and information web product

Today, the U.S. Energy Information Administration (EIA) launched a customer survey requesting feedback on a planned new web product that would expand EIA's coverage on U.S. wholesale electricity markets. We seek to understand your intended use of the information and data through this brief survey. The survey will help us understand how our customers will use the information and data in this new web product.

This survey is voluntary and your responses are confidential.

This survey will only be open to the first 1,000 respondents, so be sure to provide your feedback at <https://www.eia.gov/electricity/> or at <https://www.eia.gov/naturalgas/> .
