(a) When an FRA Motive Power and Equipment Inspector or a State Equipment Inspector determines that railroad passenger equipment is not in conformity with one or more of the requirements of the FRA Passenger Equipment Safety Standards set forth in part 238 of this chapter and that it is unsafe for further service, he or she will issue a written Special Notice to the railroad that the equipment is not in serviceable condition. The Special Notice describes the defect or defects that cause the equipment to be in unserviceable condition. 216.15

Special notice for repairs-track class.

(a) When an FRA Track Inspector or State Track Inspector determines that track does not comply with the requirements for the class at which the track is being operated, as defined in the Track Safety Standards (49 CFR part 213), he notifies the railroad in writing that the track is being lowered in class and that operations over that track must comply with the speed limitations prescribed in part 213 of this chapter. The notice describes the conditions requiring the track to be lowered in class, specifies the exact location of the affected track segment, and states the highest class and corresponding maximum speeds at which trains may be operated over that track. After receipt of such notice, the speeds at which trains operate over that track shall not exceed the stated maximum permissible speeds, until such time as the track conforms to applicable standards for a higher class.

216.17

Appeals.

(a) Upon receipt of a Special Notice prescribed in §§ 216.11, 216.13, 216.14, or 216.15, a railroad may appeal the decision of the Inspector to the FRA Regional Administrator for the region in which the notice was given. The appeal shall be made by letter or telegram. The FRA Regional Administrator assigns an inspector, other than the inspector from whose decision the appeal is being taken, to reinspect the railroad freight car, locomotive, railroad passenger equipment, or track. The reinspection will be made immediately. If upon reinspection, the railroad freight car, locomotive, or passenger equipment is found to be in serviceable condition, or the track is found to comply with the requirements for the class at which it was previously operated by the railroad, the FRA Regional Administrator or his or her agent will immediately notify the railroad, whereupon the restrictions of the Special Notice cease to be effective. If on reinspection the decision of the original inspector is sustained, the FRA Regional Administrator notifies the railroad that the appeal has been denied.

(b) A railroad whose appeal to the FRA Regional Administrator has been denied may, within thirty (30) days from the denial, appeal to the Administrator. After affording an opportunity for informal oral hearing, the Administrator may affirm, set aside, or modify, in whole or in part, the action of the FRA Regional Administrator.

(c) The requirements of a Special Notice issued under this subpart shall remain in effect and be observed by a railroad pending appeal to the FRA Regional Administrator or to the

Administrator.

At this conference, the petitioner will be afforded an opportunity to submit facts, arguments and proposals for modification or withdrawal of the Emergency order. If the controversy is not resolved at this conference and a hearing is desired, the petitioner must submit a written request for a hearing within fifteen (15) days after the conference. The hearing will commence within fourteen (14) calendar days of receipt of the request and will be conducted in accordance with sections 556 and 575, title 5, U.S.C.

(c) Unless stayed or modified by the Administrator, the requirements of each Emergency order issued under this subpart shall remain in effect and be observed pending decision on a petition for review.
