

Overview of This Information Collection

(1) *Type of Information Collection:* Extension, Without Change, of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Permission To Reapply for Admission into the United States after Deportation or Removal.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I-212; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract: Primary:* Individuals or households. USCIS uses the data collected on Form I-212 to determine whether an alien is eligible for and should be granted the benefit of consent to reapply for admission into the United States. This form standardizes requests for consent to reapply and its data collection requirements ensure that, when filing the application, the alien provides the basic information that is required to assess eligibility for consent to reapply.

USCIS must review all documents that relate to the alien's exclusion, deportation, or removal proceedings, the alien's record of immigration violations, and the alien's criminal record, if applicable. Moreover, if the alien is inadmissible under section 212(a)(9)(C)(i) of the Act, evidence must be submitted to demonstrate that the alien has remained outside the United States for a period of at least 10 years since the date of his or her last departure.

In addition to USCIS, U.S. Customs and Border Protection (CBP) and the Executive Board for Immigration Review (EOIR) of the U.S. Department of Justice (DOJ) also rely Form I-212 to grant consent to reapply for admission. These agencies use the application in the same manner as USCIS. CBP has developed an electronic filing system, called Electronic Secured Adjudication Forms Environment (e-SAFE), through which Form I-212 can be submitted when filed with CBP.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I-212 is 4,883 and the estimated hour burden per response is

9,766 hours; the estimated total number of respondents for the biometric services associated with information collection I-212 is 100 and the estimated hour burden per response is 117 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 9,883 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$613,854.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

- (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) The accuracy of the agency's estimate of the burden of the proposed collection of information;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: October 17, 2019.
