Form HUD-52860-G Instructions

This form supplements the HUD-52860 and is required when PHAs propose removal actions of public real housing property in the form of retentions in accordance with PIH Notice 2016-20 PHAs must complete this form and upload it as (along with the required supporting documentation) as part of their SAC applications submitting electronically through IMS/PIC (or a replacement system). PHAs refer PIH Notice 2016-20 for additional guidance on completing this form.

Section 1: Why Property Is No Longer Needed for Public Housing.

Refer to PIH Notice 2016-20.

Section 2. Estimate of HUD's Percentage of Participation

Refer to PIH Notice 2016-20. The amount a PHA must pay to HUD is calculated by applying HUD's percentage of participation in the cost of the original purchase (and costs of any improvements, including subsequent modernization) of the public housing real property to the fair market value (FMV) of the project or other real property. Because generally public housing real property has been funded exclusively with public housing funds, the percentage of participation costs are generally 100% of the FMV of the public housing real property.

Section 3. Intent to Compensate HUD

Refer to PIH Notice 2016-20. If a PHA is requesting an exception to the compensation requirement and its plans include the demolition of existing structures (e.g. non-dwelling property or property that once comprised public housing dwelling units where the assistance was converted under RAD), the PHA must specifically indicate the demolition and describe how such demolition is part of its planned future use for the property.
