The public housing program funds low-rent projects owned and operated by public housing agencies (PHAs), subject to the terms and conditions contained in an Annual Contributions Contract (ACC) with certain requirements applicable to all projects and other requirements applicable in only certain conditions or types of projects. These program requirements govern how properties are funded and operated by PHAs including how properties are added or removed from their inventories. Information collections from PHAs assure compliance with all Federal program requirements.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Public Housing Annual Contributions Contractor and Inventory Removal Application.

OMB Approval Number: 2577-0075.

Type of Request: Revision of a currently approved collection.

Form Number: HUD-51999; HUD-52190A; HUD-52190B; HUD-52840-A; HUD-53012A, HUD-53012B, HUD 52860, HUD 52860-B, HUD 52860-C; HUD 52860-D; HUD 52860-E, and HUD 52860-F, HUD-52860-G, HUD-5838 and HUD-5837.

Description of the need for the information and proposed use: HUD previously amended this information collection to consolidate all information that PHAs are required to submit to HUD in connection with their contractual duties to operate public housing dwelling units and other real property under the U.S. Housing Act of 1937. Section 5 of the United States Housing Act of 1937 (Pub. L. 75-412, 50 Stat. 888) permits the Secretary of HUD to make annual contributions to public housing agencies (PHAs) to achieve and maintain the lower income character of public housing projects. The Secretary is required to embody the provisions for such annual contributions in a contract guaranteeing payment. Applicable regulations are 24 CFR 941 for public housing development and 24 CFR 969 for continued operation of low-income housing after completion of debt service. This information collection also covers Public Housing Authority (PHA) submissions under Sections 18, 22, 33 and 32 that involve the authority of the HUD Secretary to approve PHA requests to remove certain public housing property from their inventories through demolition, disposition, voluntary conversion, required conversion, or homeownership conveyance, conversion through the Rental Assistance Demonstration Program (RAD) (authorized by the Consolidated and Further Continuing Appropriations Act of 2012), and any other HUD approved action that will remove Public Housing units from the ACC.

This amendment of this collection does two things. First, it adds submission requirements (HUD-52860-G) for when a PHA may choose to voluntarily apply to HUD to retain non-dwelling public housing real property

free from public housing use restrictions under the Annual Contributions Contract (ACC) and Declaration of Trust (DOT) pursuant to 2 CFR 200.311(c)(1). HUD considers retentions under this section of part 200 a “removal” of public housing real property even though the PHA will be retaining ownership of the property since the property will no longer be subject to public housing use restrictions. HUD will only approve retention requests when non-dwelling property is no longer needed for its originally authorized purpose. Second, it adds new submission requirements (HUD-5838 and HUD-5837) to collect information from any PHA who intends to remove all of its public housing dwelling units from its inventory (through any available law or HUD program, which may include Sections 18, 22, 33, 32 of the U.S. Housing Act

of 1937 or the Rental Assistance Demonstration (RAD) program) and will alert HUD to its future plans for either termination of the public housing ACC or development of new dwelling units. Please note that a PHA who removes all public housing dwelling units will be instructed to fill out either HUD-5838 or HUD-5837, not both. HUD will use the information collected in HUD-5838 to review any PHA requests for expending Operating or Capital Funds for eligible closeout activities, for extension on closeout activities, for provision of technical assistance to the PHA during its required closeout activities, and determine eligibility for the Asset Repositioning Fee (ARF) or Demolition or Disposition Transitional Funding (DDTF). HUD will use the information in HUD-5837 to monitor compliance with the Public Housing ACC following removal of all dwelling

units, to provide relevant technical assistance to the PHA, and to determine eligibility for the Asset Repositioning Fee (ARF) or Demolition or Disposition Transitional Funding (DDTF). In addition, this information request will assist HUD in maintaining accurate records of the federal public housing stock.

The functions and activities for Public Housing Annual Contributions Contractor, under OMB control number 2577-0270, has been combined with the Public Housing Inventory Removal Application, currently approved collection 2577-0075. The Office of Management and Budget (OMB) approved discontinuation of OMB Control Number, 2577-0270.

Respondents: Public housing agencies.

SUPPLEMENTARY INFORMATION:

I. Abstract

Research and monitoring findings are essential to fulfilling USGS's responsibility under the Earthquake Hazards Reduction Act to develop earthquake hazard assessments and recording earthquake activity nationwide. Residents, emergency responders, and engineers rely on the USGS for this accurate and scientifically sound information. The Earthquake Hazards Program funds external investigators to carry out these important activities. In response to our Program Announcements investigators submit proposals for research and monitoring activities on earthquake hazard assessments, earthquake causes and effects, and earthquake monitoring. This information is used as the basis for selection and award of projects meeting the USGS's Earthquake Hazards Program objectives. Final reports of research and monitoring findings are required for each funded proposal; annual progress reports are required for awards of a two- to five-year duration. Final reports are made available to the public at the Web site *http://earthquake.usgs.gov/research/external/*.
