Q. I want to request more time to get the services delivered and/or installed.

Complete this section if you wish to extend the deadline for service delivery and installation for non-recurring services or to complete Category One special construction and light the new fiber. For most non-recurring services, applicants have three additional months after the end of the funding year (until September 30) to install one-time services known as non-recurring services. For these services, USAC may extend the September 30 deadline if the applicant falls within at least one of four designated circumstances: (1) applicants whose FCDLs are issued by the Administrator on or after March 1 of the funding year for which discounts are authorized; (2) applicants who receive service provider change or service substitution authorizations from the Administrator on or after March 1 of the funding year for which discounts are authorized; (3) applicants whose service providers are unable to complete implementation for reasons beyond the service provider's control; or (4) applicants whose service providers are unwilling to complete installation because funding disbursements are delayed while the Administrator investigates their application for program compliance. USAC automatically extends the service delivery deadline for non-recurring services if the reason for the extension are either (1) or (2). However, applicants must affirmatively request an extension of the September 30 deadline for either (3) or (4). Applicants may only receive E-rate support for special construction charges if construction is complete, and the fiber is lit, by June 30 of the funding year. Applicants may request a one-year extension of the June 30 deadline to complete special construction and light the fiber if they demonstrate that construction was unavoidably delayed due to weather or other reasons. Applicants requesting this extension must submit their requests to USAC by or before the June 30 deadline. In all circumstances, granting an extension will not increase funding.

Q. I want to notify USAC that I have moved equipment to another location.

Complete this section if you are transferring equipment from a closed entity to other eligible entities within three years of the date of purchase. Schools and libraries are prohibited from transferring eligible services and the equipment components of eligible services to other schools within three years of their purchase, even without receiving money or other consideration in return, with one exception. If the school or library that orders the eligible services or equipment permanently or temporarily closes, then that school or library can transfer any services and equipment components of those services to another school or library, and must notify USAC of the transfer. Both the transferor and recipient must maintain detailed records documenting the transfer and the reason for the transfer for a period of at least 10 years or whatever retention period is required by the rules in effect at the time of the transfer.
