## INSTRUCTIONS

### NONREIMBURSABLE MEAL ALLOCATION

Use this form to assign ineligible meals, meals missing meal components, and incomplete meals subject to fiscal action for periods other than the review period and day of review at reviewed schools and for all claim periods in non-reviewed schools when meal disallowances by category cannot be obtained. Additionally, use this form to assign ineligible snacks for the day of review, review period, periods other than the review period, and for all claim periods in non-reviewed schools when disallowances by category cannot be obtained.

Complete a separate form for each Program. If the errors affect two fiscal years, separate forms for each fiscal year must be completed.

- A. Enter the free, reduced-price and paid meals from the claim for the review period. For the NSLP, enter the number of lunches claimed, for the SBP enter the number of breakfasts claimed, for the ASP, enter the number of snacks claimed. For other claim periods at reviewed schools or all claim periods at non-reviewed schools, record the number of meals, by category, claimed by the SFA for the school.
- B. Total the number of meals claimed by category and record in column B
- C. To calculate the free and reduced price ratios, divide column A by column B, carry to four decimal places and round to three places beyond the decimal. Record the results by category in column C. Determine the paid participation rate by subtracting the sum of Column C, free plus reduced, from 1.000.
- D. Record the number of meals which must be allocated.
- E. Multiply column C by column D and record the results by category. The total number of meals in column E cannot exceed the number of lunches in column D. Adjust the entry for Paid if the total number of lunches in column E is different from column D. This adjustment is due to the effects of rounding.

Transfer the disallowed meals to the School Data and Meal Pattern Error Form, S-1 (Non-reimbursable meals) and/ or Page 3 (Afterschool Snacks) as applicable.
