Introduction and consent

Web intro/consent

RTI International is conducting research on behalf of the U.S. Census Bureau to improve questions in one of its national surveys. The purpose of this research is to get feedback on how easy or difficult the survey questions are to answer. Selected participants will be asked for their thoughts and opinions about some survey questions. If you are eligible, we will invite you to a 60-minute interview which will be conducted at a location convenient to you, such as our RTI office or in a public library near your work or residence. [Placeholder: We can also conduct the interview via a secure video conference app if needed.] You will receive \$40 for participating in the interview.

To determine if you are eligible for the interview, we must ask you a few screening questions about your background and your household. Your participation in the eligibility screening is completely voluntary. You may stop at any time or skip questions that you do not want to answer.

The U.S. Census Bureau is required by law to protect your information. RTI International and Research Support Services are conducting this voluntary survey for the U.S. Census Bureau under the authority of Title 13 U.S. Code, Sections 131 and 182. Federal law requires that your answers are kept confidential (Title 13, U.S. Code, Section 9), and protects your privacy under the Privacy Act (Title 5 U.S. Code, Section 552a). Routine uses of these data are limited to those identified in the Privacy Act System of Record Notice titled “COMMERCE/CENSUS-10, American Community Survey.” The Census Bureau can use your responses only to produce statistics, and is not permitted to publicly release your responses in a way that could identify you, your business, organization, or institution.

We estimate that completing these screening questions will take 17 minutes on average. This information collection has been approved by the Office of Management and Budget (OMB). You can validate that this survey is a legitimate federally approved information collection using the Office of Management and Budget's approval number 0607-0725, which expires December 31, 2022. We are required to tell you this number to conduct this survey. Send comments regarding this estimate or any other aspect of this survey, including suggestions for reducing the time it takes to complete this survey to adrm.pra@census.gov.

If you have questions about the research, contact [NAME] at RTI International via email at [email] or [phone].

If you are eligible for the study, we will call or email you to schedule a time for the interview.
