

Consent Form

Pretesting for National Survey of Children's Health

Each year the Census Bureau conducts many different surveys. The Census Bureau routinely tests survey questions and materials used for these surveys in order to produce the best information possible.

You have volunteered to take part in a study to improve the materials used in the National Survey of Children's Health. In order to have a complete record of your comments, your interview session will be recorded and saved in a secure location. We will use the recordings to refresh our memories while we make recommendations on improving the materials. Only staff directly involved in this research will have access to the recordings.

This study is being conducted under the authority of Title 13 U.S. Code. The OMB control number for this study is 0607-0725. This valid approval number legally certifies this information collection.

Your participation is voluntary and your answers will remain strictly confidential. After completion of this session, we will send you \$40 by USPS Priority Mail for your participation in this study. Please provide your mailing address and signature below.

I have volunteered to participate in this Census Bureau pretesting study, and I give permission for my recordings to be used for the purposes stated above.
