Subject: RE: Survey Sample - TTMS

- 1) How many foreign students graduate from TTMS courses annually from courses which take the EOC? (This will determine Category)
- 2) How many total EOC surveys are completed annually? (if a survey = the set of surveys that one student takes, including Miscor)
- 3) How many questions does a student answer in the average set of surveys? $28 + 6 = 34$ questions total
- 4) How many seconds does it take a student to answer a survey question, on average? 180 seconds on average
