

NIH 100011001
Expiration Date: 30/09/2019

Public reporting burden for this collection of information is estimated to average 17 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Do not send this collection of information unless it is requested by a person and persons are not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Paperwork Project Director, Office of Management and Budget, Paperwork Project Director (0304-0188), Washington, DC 20503-2945, 0304-0188. Do not send this collection of information to the address.

Please respond to each statement:

1. As a result of my participation in this course, I am familiar with the basic principles of clinical and translational research.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

2. As a result of my participation in this course, I am familiar with the basic epidemiological methods involved in clinical research.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

3. As a result of my participation in this course, I am able to discuss the principles involved in the ethics of clinical research, the legal issues involved in clinical research, and the regulations involved in human subjects research, including the role of IRBs in clinical research.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

4. As a result of my participation in this course, I am able to discuss the roles that a basic science researcher can play in clinical or translational research.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

5. As a result of my participation in this course, I am familiar with the principles and issues in monitoring patient-oriented research.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

6. As a result of my participation in this course, I am familiar with the clinical or translational career opportunities for a basic researcher.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

7. As a result of my participation in this course, I am able to discuss the infrastructure required in performing clinical research and understand the steps involved in developing and funding research studies.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

8. As a result of my participation in this course, I am able to discuss the major concepts of clinical study design.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

9. My participation in this activity will enhance my professional effectiveness.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

10. My participation in this course will enhance my future research activities.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

11. My participation in this course will enhance my professional career opportunities.

- ☐ None or not at all
☐ Very little
☐ Moderately
☐ Considerably
☐ Completely

12. The technical level of the course was:

- ☐ Appropriate
☐ Too high
☐ Too low

13. The pace of the course was:

- ☐ Appropriate
☐ Too fast
☐ Too slow

14. The length of the course was:

- ☐ Appropriate
☐ Too short
☐ Too long

Comments and Feedback

15. What were the major strengths of the course?

16. What were the weaknesses?

17. Are there new topics you would like to have covered in this activity or in a related activity?

18. What was your overall impression of the faculty in terms of teaching ability, depth of topic coverage and general knowledge of the subjects each one covered? (be specific.)

19. Do you have additional comments to enhance the utility or impact of the course?
