That was my last question. Thank you for your time and cooperation in completing this interview.

Sometimes the personal issues we've discussed cause people to become upset and in need of speaking with a counselor. If you are feeling upset or disturbed by the personal issues we have discussed in this interview and would like to talk with someone about your feelings, we suggest you call your doctor, counselor, or other treatment provider if you are currently under someone's care. If not, there is also a National Lifeline Network number you can call. This number is on the receipt for the \$30 you received for this interview from the interviewer who met with you earlier. Do you still have that receipt?

Adult CVS Recruitment Script in Main Interview (Age 18+)

You have been selected to participate in one additional study for the U.S. Department of Health and Human Services. For this study, we are interested in interviewing a wide variety of individuals to learn more about how different people think and talk about their use or non-use of alcohol and drugs. The interview will include additional questions about your knowledge of and experiences with alcohol and drugs. It will be conducted over the telephone and will take about an hour. Participation in this interview is voluntary and all of your answers will be kept private and confidential.

Any data you provide will only be used by authorized personnel for statistical purposes. We hope that protecting your privacy will help you to give accurate answers.

If you agree to participate, I will give you an additional \$30 today. Within the next two weeks, a different interviewer will call you to explain more about the interview and to schedule a convenient time to complete it. If you wish, you may complete the full interview when the interviewer calls.

This study is sponsored by the Substance Abuse and Mental Health Services Administration (SAMHSA), part of the U.S. Department of Health and Human Services (DHHS). Knowledge gained from the study will improve our ability to describe and understand alcohol and drug use in the United States.

IF ASKED "HOW IS THIS INTERVIEW DIFFERENT": To be certain the questions asked during the first interview accurately collect data as intended, we must periodically conduct special studies to evaluate new questions. The follow-up study will ask questions similar to those just answered, but in a different way through an interview conducted over the phone.

Youth Clinical Validation Study Recruitment Script (Age 12-17)

To Youth:

You have been chosen to take part in one additional study for the U.S. Department of Health and Human Services. Before I explain more about the study to you, I need to get permission from your parent or guardian for you to participate.

ASK TO SPEAK TO PARENT OR GUARDIAN WHO HAS LEGAL CUSTODY.

To Parent:

Your child has been selected to participate in one additional study for the U.S. Department of Health and Human Services. Are you the parent who has legal custody of this child or are you [HIS/HER] legal guardian?

IF NOT, ASK TO SPEAK TO THE PARENT OR GUARDIAN WHO HAS LEGAL CUSTODY.

For this study, we are interested in interviewing a wide variety of individuals to learn more about how different people think and talk about their use or non-use of alcohol and drugs. The interview will include additional questions about your child's knowledge of and experiences with alcohol and drugs. It will be conducted over the telephone and will take about an hour. Participation in this interview is voluntary and all of [HIS/HER] answers will be kept confidential.

Within the next few weeks, a different interviewer will call you and your child to explain more about the interview and to schedule a convenient time to complete it. If you wish, [HE/SHE] may complete the full interview when the interviewer calls.

All of your child's answers will be private and confidential and used only for statistical purposes. There are two exceptions to this promise. If [HE/SHE] tells the interviewer that [HE/SHE] intends to seriously harm [HIMSELF/HERSELF] or someone else, the interviewer may need to notify you or a mental health professional or another authority. If your child tells the interviewer that [HE/SHE] is at risk of serious harm by someone else, the interviewer may also need to notify you or another authority.

Your child may consider some of the questions to be sensitive and some of the questions may also make [HIM/HER] feel certain emotions, such as sadness. [HE/SHE] can refuse to answer any questions that [HE/SHE] does not want to answer and can stop the interview at any time. If your child becomes upset during the interview and wishes to speak to a mental health professional about how [HE/SHE] is feeling, the interviewer will provide [HIM/HER] with toll-free hotline numbers.

HAND YOUTH FOLLOW-UP STUDY DESCRIPTION TO PARENT/GUARDIAN.
