Please refer to the email below regarding the “Charge Form – Corrected First Page.”

Subject: RE: IER Charge Form Q

Melody,

We realized that there is one more change we should make to our form. On the first page, we did not change a reference to “document abuse” to “unfair documentary practices” though we changed this same language on page 3. Do we need to send anything to JMD to correct this language? It does not have any effect on the information we collect from the public.

Thanks.

Jenny
