# Request for Approval under the "Generic Clearance for the Collection of Routine Customer Feedback" (OMB Control Number: 1652-0058)

### TITLE OF INFORMATION COLLECTION:

The Transportation Security Administration (TSA) Contact Center (TCC) Customer Satisfaction Survey-Telephone

## **PURPOSE:**

The TCC is the primary point of contact for the public to TSA and receives inquiries from the traveling public, TSA employees, private industry, other government organizations, members of Congress and the White House. The TCC responds to inquiries that cover a variety of topics concerning TSA. The objective of the data collection from this population is to collect, analyze and interpret information gathered to identify strengths and weaknesses of current customer service and make improvements.

## **DESCRIPTION OF RESPONDENTS:**

The TCC agents offer the survey to each caller at the conclusion of their transaction and personally transfer them into the survey. The primary respondents will be members of the traveling public who have contacted TSA via telephone, to obtain information about travel or to provide feedback about a recent travel experience. However, as described above, other members of the traveling public also send inquiries to the TCC as well.

### **CERTIFICATION:**

I certify the following to be true:

- 1. The collection is voluntary.
- 2. The collection is low-burden for respondents and low-cost for the Federal Government.
- 3. The collection is non-controversial and does not raise issues of concern to other federal agencies.
- 4. The results are not intended to be disseminated to the public.
- 5. Information gathered will not be used for the purpose of <u>substantially</u> informing <u>influential</u> policy decisions.
- 6. The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the future.
