

# ENERGY STAR® Challenge for Industry Recognition Application

OMB Control Number 2060-0347

As the energy manager for my company and/or site, I am writing to nominate the following site for recognition for achieving the ENERGY STAR Challenge for Industry.

I affirm that this site meets the conditions necessary to qualify for the ENERGY STAR Challenge for Industry recognition by achieving a 10% reduction in energy intensity within 5 years of establishing a baseline.

I have personally examined and am familiar with the information contained in the Statement of Energy Improvement. The information is based on reasonable inquiry and is, to the best of my knowledge, true, accurate, and complete. I have no reason to believe the site would not meet all EPA program requirements for receiving the ENERGY STAR Challenge for Industry recognition.

I understand the U.S. Environmental Protection Agency reserves the right to request and review any records which support the data used to calculate the energy intensity reduction for this site. I also certify that I am maintaining a file on this site in accordance with the ENERGY STAR Challenge for Industry data management requirements. Furthermore, I agree to associate the achievement of the ENERGY STAR Challenge for Industry only with the aforementioned site and to adhere to the ENERGY STAR Identity Guidelines.

IMPORTANT: Upon completing this online application form, you must submit the site's signed Statement of Energy Improvement and PE Verification Checklist to [industrychallenge@energystar.gov](mailto:industrychallenge@energystar.gov) to complete the application process.

\* Required

I agree with all statements made above. \*

Yes

To gain recognition in the ENERGY STAR Challenge for Industry, the site's company must be an ENERGY STAR partner. Is your company an ENERGY STAR partner? \*

Yes

No

## Site Information

Please enter any additional comments or requests that you would like EPA to consider.

Your answer

---

## Do you want to re-register this site for the Challenge?

If you would like to re-register this site to take the Challenge again, click the box below. The energy intensity and ending period recorded on the Statement of Energy Improvement for this application will be used as the new baseline.

Re-register our plant for the Challenge!

The public reporting burden for this collection of information is estimated to average 10 minutes per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

EPA Form Number 5900-262

**BEFORE YOU CLICK SUBMIT:** Using your browser's Print function, please print this completed form to a PDF or paper and retain for your Formal Site File. Then click Submit.

**SUBMIT**

Never submit passwords through Google Forms.

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2060-0347). Responses to this collection of information are voluntary (Section 103(g) Clean Air Act). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be 10 minutes per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
